EUCHARISTIC CEREMONY

More Than 350,000 Defy Rain and Gale in Press to Participate in World's Greatest Display

CHICAGO, June 21. (P)—Pilgrims from all the earth met on the shores of Lake Michigan today in the most impressive demonstration of religious zeal ever witnessed in America if not in the world. Defying threatening skies and a wind which approached a gale, more than 200,000 worshippers pressed into the great memorial stadium extended along a half-mile of lake front for the celebration of solemn pontifical mass by John Cardinal Bonzano, legate of Pope Pius to the Twenty-eighth International Eucharistic Congress. Police estimated that 350,000 persons thronged the area of two square miles of which

POPE RAISES CLERICS TO CARDINALS

Other Offices Bestowed as Secret Consistory Held in Vatican Yesterday

ROME, June 21. (AP)—Pope Pius at a secret consistory this morning elevated to the cardinalate Mgr. Carlo Perosi, assessor of the holy office, and Mgr. Luigi Capotosti, secretary of the congregation of sacraments.

He also recognized a number of bishops and promoted Cardinal Priest Michael Lega to be a cardinal bishop, filling the recently vacated suburban seat at Frascati, near Rome.

The ceremony of creation of the two new cardinals was performed with traditional grandeur in the hall of the consistory. The Holy Father made his entry in white robes, followed by the entire ecclesiastical hierarchy, including the Vatican and the Swiss Noble Guards.

The Pope, after a prayer and a short address, read the official ceremony of setting the cardinals' opinions regarding the creation of the new princes of the church. He gave his assent by raising his red hat.

American Arctic Party Sets Sail for Greenland

RYE (N. Y.) June 21. (AP)—The American Museum of Natural History's Greenland Expedition which will collect rare specimens of marine animals and vertebrates of the subarctic zone, sailed yesterday for Etah, Greenland, from Morrissey, for Etah, Greenland.

Leading the expedition is George Palmer Putnam, publisher, Capt. Robert A. Bartlett, owner and master of the sealer, and captain of the steamship Roosevelt on two of Admiral Peary's North Pole expeditions. Roosevelt sailed, 22 years ago, and the admiral was a member of the party, making his first arctic voyage.

The party will proceed to Etah, where the party will make stops to locate possible airports for a proposed air route to the North Pole. Etah is the northernmost point of the continent on the east coast. From Cape Columbia the party will proceed to Etah. The expedition will return in September.

Gas Company Asks Right to Increase Rates

SAN FRANCISCO, June 21. (AP)—The Southern Counties Gas Company, serving territory outside the city limits of Los Angeles, today applied to the State Railroad Commission for authority to increase its rates on natural gas in the San Pedro district. This includes San Pedro, Seal Beach, Wilmington and contiguous areas.

Recent adjustments in the industrial rate make the higher rate necessary, the company said.

The commission has previously said priests remaining in their places about the foot of the altar. Against the procession was halted by the pressure of the throngs about the clergy, and it was more than an hour before the last of the purple-robed bishops left the sanctuary.

"Prayer is man's first duty to his maker and his chief resource and consolation in distress," Judge Mantorosa said.

"Prayer, for the majority of people means petition. The prayers of such persons are heard because they are requests for material prosperity or gain. While this feature is the predominant one, it is not the only one. It is hardly necessary for me to remind you that it also is a prominent character of all the great religions. The asceticism of being prayer for material civilization is better prayer for material civilization."

WARFARE RACKS DAMASCUS

French Guns and Planes Daily Bombard Druses

Besieging City from Surrounding Gardens

DAMASCUS, June 21. (AP)—Damascus, ancient Moslem capital of Syria and Holy City of the Near East, has become a fortress echoing daily to the French bombardment of disident tribesmen who have held the outlying gardens for the past six months. Besieged from without by disident Druze, the city is also barricaded and guarded within, to maintain order among the inhabitants themselves.

Three rows of barred-wire, block-houses, dugouts bristling with machine guns and artillery encircling the heart of the city, have kept the besieging army at bay for a high price of mortal capital. Relative calm has been maintained among the rebellious elements within the city by barricades, barred-wire entanglements and piled-up sand bags, at every important intersection. The command post square in the center of the city to within 100 yards of the French general staff headquarters.

DAILY BELLING

Bombardments occur daily and nightly in varying degrees of intensity. At midnight, the sound of exploding shells was heard from the heights of Kasloum Mountain, overlooking Damascus from the north, and within the aid of field batteries cast the shells exploded, kicking up great clouds of dust, wreckage and fragments of masonry from the ruins.

A correspondent for the Associated Press stood on the steps of the Kasloum Mountain, overlooking Damascus from the north, and witnessed the aid of field batteries cast the shells exploded, kicking up great clouds of dust, wreckage and fragments of masonry from the ruins.

dens of the immediate vicinity of the wall of Damascus, where the dissidents, who number between 1200 and 2000, are concentrated. Airplanes and artillery are used steadily.

During the night of the 18th inst., about 300 shells were fired between the city and the village of Joubayli. One airplane torpedo, especially, made a clean hit, apparently in the center of the village of Joubayli where the correspondent, could see human beings scampering for cover.

There was no return fire from the village.

ADJOURNMENT DATE BLOCKED

House Republican Leaders
Upset in Program

Plan to End Session on Last
of Month Defeated

Delay Sponsored as Aid to
River and Farm Bills

WASHINGTON, June 21. (AP)—Upsetting the program of Republican leaders, the House declined today to set a definite date for the close of the present session.

By a vote of 191 to 188, a move, sponsored by Representative Tilton, the Republican floor leader, to bring about adjournment on the 30th inst. was defeated, for the time being at least.

Headed by Representative Madden, Republican, Illinois, a group of western Republicans and southern Democrats mustered sufficient strength to send a resolution proposing sine die adjournment a week from Wednesday to the House Ways and Means Committee.

The action of this group, as explained by Mr. Madden, was prompted by a desire to prolong the session until the Senate can act on the river and harbors bill and farm legislation.

Mr. Madden also said he is opposed to setting a definite adjournment date until the second deficiency bill has been passed by both House and Senate. This measure is expected to be reported this week by the House Appropriations Committee, of which he is chairman.

FIBUSTER FEARED
It will carry funds for starting construction this summer of a number of new postoffice buildings, said Mr. Madden, contending, if Congress decides now to adjourn at a specified time, the way will be open for filibuster against the bill.

Chairman Snell of the Rules Committee, presented the adjournment resolution shortly after the House convened at noon. He said he offered it at the direction of Mr. Tilton.

Mr. Madden asked for time to discuss the proposal, but Speaker Longworth held it was not debatable.

Madden then moved to refer it to the Ways and Means Committee, ninety-eight Republicans, ninety Democrats, one Progressive Socialist, one Farm-Labor and one Independent supporting his motion. Voting against the Madden proposal were eighty-seven Republicans and forty-six Democrats.

DIRECT VOTE BLOCKED
In moving to send the adjournment proposal to the Ways and Means Committee, Madden forestalled a direct vote on the question. Afterward, a number of members, including Representative Garrett, the Democratic leader, said they had voted against the Madden motion for a parliamentary reason. Some thought it should have been referred to the Rules Committee.

Representative Green of Iowa, the chairman of the Ways and Means Committee, was not prepared to say what action will be taken by his committee, or when a meeting will be held. Representative Oldfield of Arkansas, a member of the committee and also chairman of the Democratic congressional campaign committee, predicted there will be no committee action until "it is certain the House is ready to adjourn."

Mr. Snell said it probably will be "some little time" before another effort is made to set an adjournment date, and added that as chairman of

COMPROMISES ON FARM BILL

Amendments Accepted to
Placate Opponents

Proponents See Hope for
McNary Plan Victory

Mellon Assailed for Attack
on Relief Measure

WASHINGTON, June 24. (AP)—Fighting a spread of less than a dozen votes between victory and defeat, managers of the McNary farm bill in the Senate sought today to placate the opposition with amendments.

The measure came through the day with several alterations and more are planned for tomorrow. None, however, is regarded by proponents as involving the principle of the bill.

Numerous conferences were held between those in charge of the measure and opponents regarded as lukewarm in their position, in an effort to strike compromises. This maneuver was resorted to in an effort to save the bill as well as more than forty Senators were willing, its sponsors conceded, to support it in its original form.

Today proponents said they had "hope of getting the bill passed" while the opposition, unperturbed over the negotiations, expressed confidence that the measure would be defeated by a good margin.

In the face of the Senate developments, the House Agriculture Committee adjourned until next December, instructing its chairman, however, to call a session if the Senate should pass the bill.

In the Senate the first amendment adopted was offered by Senator William McNary, Republican, Oregon, who is in charge of the measure. It would require a general audit of the accounts of the Farm Board, which would be created. The amendment was accepted without debate by Senator McNary.

Another, offered by Senator McNary, which substituted the words "processor or purchaser" for "person" in the equalization fee enforcement clause, was adopted after a long argument. Senator McNary declared the amendment removed the producer from the compulsory application of the fee and was designed to meet the objections raised by Senator Borah, Republican, Idaho.

The Senate turned a cold shoulder, however, to an amendment by Senator Cummins, Republican, Iowa, and he withdrew it after it had been attacked from both sides of the chamber. It would have placed control of the application of the equalization fee in the hands of the majority of the producers of the commodity involved and provided that operations in a particular commodity could not commence if the members of the board representing land-bank districts producing more than 30 per cent of the crop objected.

During the debate Senator Simmons, Democrat, North Carolina, a supporter of the bill, assailed Secretary Mellon for his letter to members of the House advising against its passage.

"Secretary Mellon had the effrontery to argue that the measure would increase the cost of living when representing a protected group that has been enjoying exclusive privileges for that they have dominated the governmental affairs so long they have become arrogant and have acquired a sense of superiority in the right to demand favors of the government."

Andy, but it will rise from its grave again, invested with power to meet all forces of industry and capitalism which are arrayed against it."

Opposing the bill, Senator Sackett, Republican, Kentucky, said it was impracticable and would ruin the bankruptcy. He urged the Senate to attempt to solve the farm problem when it did not have sufficient information to legislate wisely.

"It would raid the pocketbooks of every person in the country," he added, "and would benefit nobody."

HOUSE AND SENATE IN JUDGE ROW

Disagreement May Balk
Legislation to Appoint
Additional Jurists

WASHINGTON, June 21. (AP)—A disagreement which has developed between the Senate and House over the creation of additional federal judges threatens to prevent any legislation on the question at this session.

The Senate some time ago passed five separate bills authorizing five additional judges but the House incorporated them in one bill with ten additional district judges and one new circuit judge. Today the Senate Judiciary Committee struck out all of the House provisions and left only the five already provided by the Senate.

House members interested in the judgeships have sent word to the Senate that it cannot have the five unless the House gets its ten. An effort will be made to adjust the dispute in conference.

The district judges stricken out by the committee included one each for the Southern District of California and the Northern District of California.

Woman Must Hang, Canadian Court Decrees

ROBerval (Quebec) June 21. (AP)—Mrs. Emily Sprague Gallop has been sentenced to hang October 15 for the murder of her husband, Abraham Gallop, last year. She is 40 years of age.

Gallop died at St. Malo under suspicious circumstances, and was buried. Later the body was exhumed and traces of strychnine were found in the viscera. The chief witness for the crown, Walter Simpson, testified that Mrs. Gallop confessed that she poisoned her husband because she did not love him. He said she told him that it was he whom she loved and asked him to marry her.

Weber

Enchanting Both Eye and Ear
The Period Weber

What's in a name?—whatever may be said of a rose—a piano name is vital—guarding always its reputation—quality—standing—it establishes a genuine birthright. The name of Albert Weber, the man who gave his creative genius and infinite care to the Weber piano, is one of the greatest names in all pianodom. In tone, in responsiveness and craftsmanship the Weber is far famed.

"A thing of beauty"—today the beautiful period cases of the Weber grands are an added complement to their beautiful musical qualities. Made of choicest woods, perfectly finished and of designs originally created by master furniture makers, these Weber period pianos are exquisite pieces of furniture.

FOR Sour Stomach PHILLIPS' Milk of Magnesia

Hereafter instead of soda take a solution of bicarbonate of soda, leaving the stomach sweet and free from mucus. Besides, it neutralizes acid fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

Better Than Soda
For fifty years genuine "Phillips' Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda.

Try a 25c Bottle
Insist upon "Phillips' Milk of Magnesia" Twenty-five cent and fifty cent bottles, any drug store.—(Advertisement)

WONDERFUL HOW POSAM CLEARS PIMPLY SKINS

What girl wouldn't give \$50 to have her complexion clear and fresh? Yet that is all Posam costs, and no expensive lotions or tedious treatments will so quickly get rid of pimples, blotches and rashes and make the skin healthy, glowing and youthful. At all drug stores.—(Advertisement.)

GOOD HEALTH NECESSARY

Many Busy Women Owe
Their Health to Lydia E.
Pinkham's Vegetable
Compound

Fifty years ago there were few occupations for women. Some taught school, some did housework, some found work to do at home and a few took up nursing. Today there are very few occupations not open to women. Today they work in great factories with hundreds of other women and girls. There are also women architects, lawyers, dentists, executives, and legislators. But all too often a woman wins her economic independence at the cost of her health.

Mrs. Elizabeth Chamberlain works in the Universal factory making overalls. She writes that she got "wonderful results" from taking Lydia E. Pinkham's Vegetable Compound. Mrs. Chamberlain lives at 600 Monmouth St., Trenton, N. J. She recommends the Vegetable Compound to her friends in the factory and will gladly answer any letters she gets from women asking about it. Are you on the Sunlit Road to Better Health?

POOR EYESIGHT YOUR EYES EXAMINED GLASSES COMPLETE

As examination of your eyes, a pair of spherical glasses, in a frame, complete for \$2.90. One week only.

Gold or shell frames, toric, cylindrical, fancy shapes and double vision glasses correspondingly low.

Poor eyesight is the cause of many troubles. It is at least a great inconvenience at times. Eye strain may cause headaches, nervousness, squinting, insomnia and many other troubles. Many eyes are easily corrected while many more are not. Yours may be the latter kind, and there is where Experience, Knowledge and Ability count—by overcoming these "snags." You can't afford to take the chances.

Have an Oculist's Examination—insist upon it. Correct vision increases your earning power. Give your eyes the best of care. They are worth it. I try to be reasonable in my charges. No "drop" used. Some of your neighbors are wearing glasses I fitted.

ARROWSMITH by Sinclair Lewis

THE TALE OF ST. HUBERT lies in the Southern West Indies. It has a population of 10,000. It is an island of sugar cane and coffee, with people living from this blooded land and of bubonic plague has closed in upon it.

DR. MARTIN ARROWSMITH, staff member of the Modern Institute of Biology, a purveyor of scientific research, is based in New York. He has discovered what is called "phage." He has been ordered to proceed with an expedition to the island of St. Hubert, where plague is rampant. Martin is married, has a robust physique, is hedonistic, has an erratic temperament, and follows the latest scientific rather than a humanitarian bent.

LEONA TOYER ARROWSMITH, Martin's wife, is a lower-class private detective's daughter. She is a former student of the Modern Institute. She is a charming type in modern fiction.

DR. MAX GOTTLIEB, one of the world's wonder workers in bacteriology and immunology, is now director of the Modern Institute. He formerly was one of Martin's instructors at the University of Wisconsin. He had a son, Robert, and a daughter, Marie.

DR. R. W. INCHAPPE JONES is Surgeon General of St. Hubert, a tall, thin, friendly, youngish man.

DR. ALMUS PICKERBAUGH, a Congressman from California, was once Martin's superior in the health department of California.

FR. GUSTAF SONDELIN is a soldier of science who is famed not only as a physician but as a leader of men. He has a wife and a son, and is a devotee of the plague.

Martin had never seen a foreign country—he could not think of Canada, where he had spent a vacation as hotel waiter, as foreign to him. He could not comprehend that he was really going to a place of palm trees and brown faces and languid Christmas Eve.

He was busy (while Sondelin was out ordering linen suits and seeking a proper new sun helmet) making antiplague phage on a large scale; a hundred liters of sealed glass ampoules. He felt the normal Martin, but conference and powers were considering him.

There was a meeting of the board of trustees to advise Martin and Sondelin as to their methods. For it is the president of the University of Wilmington gave up a promising interview with a millionaire alumna, Rose Mark, gave up a game of golf, and one of the three university scientists arrived by airplane.

Called in from the laboratory, a rather young man in a wrinkled soft collar, dazed still with the details of Brinsmead's death, infuential earth, and electric filters, Martin was confronted by the men of measured merriment, and found that he was no longer concealed in the invisibility of his laboratory but as a leader who was expected not only to produce miracles but to explain them. He was a man of mature and miraculous he was.

He was shy before the spectacle of gravity of the five trustees as they sat, like a supreme court, at the day table in Bonanza Hall—Gottlieb a little removed, also trying to look grave and supreme. But Sondelin rolled in, enthusiastic and tremendous, and suddenly Martin was not shy, nor was he respectful.

Sondelin wanted to exterminate all the rodents in St. Hubert, to enforce a quarantine, to use Yerin's serum, and Hadley's prophylactic, and to give Martin's phage to everybody in St. Hubert, all at once, all with everybody.

Martin protested. For the moment it might have been Gottlieb speaking.

He knew, he flung at them, that humanitarian feeling would make it impossible to use the poor devil of sufferer as mere objects of experiment, but he must have at least a few real test cases, and he was damned, even before the trustees he was damned, if he would have his experiment so mucked up by multiple treatment that they could never tell whether the cure was due to Yerin or Hadley's or phage or none of them.

The trustees adopted his plan. After all, while they desired to save humanity, wasn't it better to have it saved by a McCurk representative than by Yerin or Hadley or the outlandish Sondelin?

It was agreed that if Martin could find in St. Hubert a district which had not been touched by the

plague, he should there endeavor to have test cases—one-half infected with phage, one-half untreated. In the badly afflicted districts, he might give the phage to every one, and if the disease slackened unusually, that would be a secondary proof.

Whether the St. Hubert government, since they had not asked for aid, would give Martin power to experiment and Sondelin police authority, the trustees did not know. The surgeon-general, a chap named Inchcape Jones, had replied to their cables: "No real epidemic need help." But McCurk promised that he would pull his numerous wires to have the McCurk Commission (Chairman, Martin Arrowsmith, B. A., M.D.) welcomed by the authorities.

Sondelin still insisted that in this crisis, the trustees did not need his help. Yet he listened to Martin's close-reasoned fury with the enthusiasm which this bull-necked scientist could have for anything which sounded new and preferably true. He did not like Almus Pickersbaugh, regarded a difference of scientific opinion as an attack on his character.

He talked of going on his own, independent of Martin and McCurk, but he was too busy with the plague to do so. He had a wife and a son, and he was a devotee of the plague.

He talked of going on his own, independent of Martin and McCurk, but he was too busy with the plague to do so. He had a wife and a son, and he was a devotee of the plague.

Martin had never known greater peril than swimming a flood as a hospital intern. From waking to midnight he was too busy making phage and receiving unsolicited advice from all the institute staff to think of the dangers of a plague epidemic, but when he went to bed, when his brain was still revolving with plans he pictured rather too well the chance of dying, unpleasantly.

When Leora received the idea that he was going off to a death-haunted island, to a place of strange ways and trees and faces (a place, probably, where they spoke funny languages and didn't have movies or toothpaste), she took the notion secretly away with her, to look at it and examine it, precisely as she often stole little foods from the table and hid them and meditatively ate them at odd hours of the night, with the pleased expression of a bad child.

Martin was glad that she did not tell her husband, by worrying. Then, after three days, she spoke:

"I'm going with you."

"You are not?"

"Well... I am!"

"It's not safe."

"But I'll be absolutely all right. Oh, I have a husband who cures things. I have! I'm going to blow in a lot of money for thin dresses, though I bet St. Hubert isn't any hotter than Dakota can be in August."

"Listen! Leora, darling! Listen! I do not think the phage will immunize against the plague—you bet I'll be mighty well infected with it myself—but I don't know, and even if it were practically certain, there'd be some people it wouldn't protect. You simply can't go, sweet. Now I'm terribly sleepy."

Leora set her lips, as comic fence as a boxing kitten, but her eyes were not comic, nor her—wailing, wailing, age-old wail of the soldier women:

"Sandy, don't you know I haven't any life outside of you? I might've died, but honestly, I've been glad to let you absorb me. I'm a lazy, use-

KING'S GARDENS TRAP WANDERER

Young Sailor Found Trying to
Get Out of Royal Grounds
in Britain

LONDON, June 21. (AP)—Arthur Elmore, a young sailor, who was found trying to get out of the gardens of Buckingham Palace, cannot quite understand why the King's town residence is not better guarded.

Elmore was apprehended early Saturday. His explanation was that he had wandered into the grounds through the servants' quarters in the rear of the palace and that, when he saw a bench under a shade tree, he decided to take a nap. After being refreshed by slumber, the sailor tried to find an exit and eventually stumbled onto a policeman.

The King, who until today has been staying at Windsor, had a good laugh when informed of the event and instructed the authorities to free Elmore if they were sure he was all right mentally.

less, ignorant sort, except as maybe I keep you comfortable. If you were of there, and I didn't know you were all right, or if you died and somebody else cared for your body that I've loved so—haven't I loved it, dear?—I'd go mad. I mean it—can't you see I mean it—I'd go mad! It's just—I'm you, and I got to be with you."

"And I will help you! Make your mind and everything. You know how often I've helped you. Oh, I'm not much good at McCurk, with all your awful complicated jiggers, but I did help you at Nautilus—I did help you, didn't I—and maybe in St. Hubert—last week was the voice of women in midnight terror—maybe you won't find anybody that can help you even my little bit, and I'll cook and everything."

"Darling, don't make it harder for me. Going to be hard enough in any case."

"Damn you, Sandy Arrowsmith, don't you dare use those old stuck-up expressions that husbands have been drooling out to wives forever and ever! I'm not a wife, any more, you're a husband. You're a rotten husband! You neglect me absolutely."

"The only time you know what I've got on is when some doggone button slips—and how they can pull off when a person has gone over 'em and sewed 'em all on again is simply beyond me—and then you bawl me out. But I don't care. I'd rather have you than any decent husband."

Besides, I'm going."

Gottlieb opposed it. Sondelin roared about it, Martin worried about it, but Leora went—and his only act of craftiness as director of the institute—Gottlieb made her "secretary and technical assistant to the McCurk Plague and Bacteriophage Commission to the Lesser Antilles," and blandly gave her a salary.

The next installment of this most absorbing novel—written by the author of "Main Street" and "Babbalanja"—will appear in tomorrow's Times. Watch for it.

(Copyright, 1934, by the Random House.)

Of the eleven street car lines in South Africa, seven are owned by cities.

Warm Weather WEIGHT—

THE TROPICS furnish the idea for summer comfort. Your initiated man anxiously awaits the day when he can don his light thin summer garments. A physical joy is unavoidable in these crisp—cool, luxurious two-piece warm-weather suits.

The price of these weight-free fabrics, tailored into two-piece suits is surprisingly moderate.

Summer Flannels, Palm Beach Clothes, Tropical Worsteds, Mohairs—

RICHARDS, KINSEY WIN IN FIRST WIMBLEDON MATCHES

WIMBLEDON (Eng.) June 21. (AP)—Disposing of their opponents in impressive style, Vincent Richards and Howard Kinsey, American entrants in the men's competition of the Wimbledon tennis tournament, moved today to the second round.

Richards defeated A. F. Yencken in straight sets, 6-0, 6-0, 6-0, while Kinsey eliminated C. F. Dixon, the British veteran internationalist, 6-4, 6-1, 6-1.

It was a "royal opening" with regal weather to crown the day. King George and Queen Mary officiated, with the Duke of York occupying a seat in "Their Majesties" box to watch the play.

The opening ceremonies with the presentation of medals to the former champions by Queen Mary on the red-carpeted center court, were as long drawn out that the playing events were late in starting and it was not until eight o'clock that the last of the day's matches were completed.

One of these was the contest in which Henri Cochet, French hard court champion, defeated A. N. W. Dudley, the former

English army champion, and the Frenchman's victorious start in the tournament was watched by a deeply interested crowd, as he thereby earned the right to meet Richards in the third match tomorrow.

Though coming early in the tournament, this is one of the most important of entire series, as it will have a vital bearing on the outcome of the championship.

EASY FOR KINSEY Kinsey seems likely to have an easier time of it, although meeting a scorching player, in J. B. Gilbert, the left-handed English Davis Cup candidate.

The most interesting feature of the day's play was a one-set exhibition match in which Miss Lengien and her partner, Miss Ellsworth Ryan, had the unusual experience of defeat at the hands of the opposing pair, who in this case were Mrs. L. A. Godfree (formerly Miss Kittie McKane) and Miss Brouman, the latter of Holland.

The French star, shedding her green sweater, put every ounce of all her energy into her endeavor to stave off the determined attack, but Miss Ryan, who was off her game, gave her little help, and they lost, 6-3, the score.

CLASH WITH SUZANNE Mrs. Godfree and Miss Lengien had several interesting exchanges over the net, which gave them an opportunity to win at the expense of St. Louis. Score:

CHICAGO: 1st set, 6-3; 2nd set, 6-3; 3rd set, 6-3; 4th set, 6-3; 5th set, 6-3; 6th set, 6-3; 7th set, 6-3; 8th set, 6-3; 9th set, 6-3; 10th set, 6-3; 11th set, 6-3; 12th set, 6-3; 13th set, 6-3; 14th set, 6-3; THIS PUG HAS
HORSE FEVER

Probably Chortles "Jingle
Bells" to Tune of
"Horses"

Jack Willis is an original cowboy. He doesn't carry his own broncho around from town to town, but rents them.

Matchmaker Wad Wadhams received a wire yesterday from Tim McGrath with the following request:

"Please make arrangements for a saddle pony as Willis will want to ride to and from the gymnasium daily in his usual style. He is afraid of motor cars. We arrive Tuesday."

Willis is signed to meet Bert Collins at Vernon in one of the ten-round events a week from today. He has from San Antonio, Tex. Evidently he still sticks to the saddle profession. He is 22 years of age.

***** never fight in the Mexican arena. He lost much of his drawing power when Loughran beat him. Fighters as far gone as the Frenchman are not good gate attractions.

JACK ADAMS WHIPS
HERMAN IN BATTLE

NEW YORK, June 21. (P)—Sergeant Jack Adams of St. Louis, won a ten-round decision over Italian Jack Herman of Yonkers, N. Y., here tonight. Each weighed 180.

Eddie Burnbrook of Baltimore, welterweight champion of the Army, outpointed Maurice McArdle of New York in another ten-round match.

Here's summer on a single promoter about an open-air show. Quite a contrast to this time last year when Dick Donald had already staged one at Ascot. Jack Doyle had one ready for Maier ball park and rumors of many others filled the air. Now everybody seems to have settled down to a state of watchful waiting. Dick Donald has his ears pinned back for a good show, and "Mad" Wadhams is carefully scrutinizing the field for a bang-up engagement in the ball park. They'll be major events or the boys won't put them on.

The answer to the local contemplations is the Chicago situation. The Illinois boxing law is finally in working order and Chicago is going through the same set of feverish emotions that hit Los Angeles when our ten-round law became effective. The cream will be skimmed in the first few months, and then things will settle down to normal, just like they did here. But until this stage is reached Chicago has the open-air attractions that could have been used here so nicely. Boys like Red Taylor and Sammy Mandell who were the pieces de resistance of all Fresno affairs here this time last year are the mainstay of Chicago's first big open-air shows. Taylor gets his crack at Phil Rosenberg's bantamweight title next month, and Mandell has finally landed Rocky Kansas for a titular lightweight match.

GLICK GETS BOUT ON
ATHLETIC CLUB CARD

Sid Glick, a real fighter, who lost to Sammy Mandell by taking off seventeen pounds in six days before the fight, will get his second chance to show Los Angeles fans that he is no "pooka." Glick is matched with Jack Thompson in the six-round main event of the Main-street Athletic Club next Saturday night. Thompson knocked out Billy McCann of Cleveland in eight rounds in San Diego last Friday night. He also holds a win over Frankie Farren. Young Sam Langford and a draw with Baby Joe Gans.

Joe Burns, an unusually hard puncher among the featherweights, will meet Frankie Flores in the four-round semi-wind-up. Burns lost but one fight in the last four months. That was to Joe Salas at Hollywood. Other bouts on the card follow: John Dougherty vs. Eddie Hubbeck, 160 pounds; Pete Savera vs. Louis Ochoco, 124 pounds; Francisco Villalobos vs. Francisco Hernandez, 143 pounds; Ruben Roman vs. Charley Dunn, 135 pounds; and Francisco Aguilar vs. Jimmy Jasper, 115 pounds.

LA SALLE TAKES ON
CADENA AT CULVER

The main event at Culver City tonight between the "Culver Rose," Bobby La Salle, and Ad Cadena is one that the beach bugs have long asked for. Both of the boys have been hitting the high spots of pugilistic fame recently, and the wise ones say that there are only two possible solutions, a kayo or a draw.

La Salle has won by the kayo route in three of his last four fights and the last one with Ernie Gooseman, at El Centro, was a terrific go from the first tap of the going to the last of the tenth. At that, considering the fact that Cadena has won all of his last eighteen fights, La Salle has without doubt the toughest opponent to face that he has had in his entire career.

The hard-hitting Joe Cardona is matched in the semi, four rounds, with the clever Young Terry. Four other fast-fours complete the card. They are: Joe Cortez, Arielanga vs. Jack O'Brien; Young Magdallino vs. Young Carpentier; Chappy Cruise vs. Sammy Rothstein; Bert Clemons vs. Kid Lieve.

FILIPINO BANTAM TO
HEAD WHITTIER CARD

Angel De Cruz, Filipino bantamweight sensation, with a record of defeating some of the best in his division on the Pacific Coast in the last six months, will come together with Joe Mandot, Mexican favorite, in the eight-round main event Thursday night at the Whittier American Legion stadium.

In the semi-wind-up for six rounds, Tommy Shull of Whittier will trade blows with Bobby Brooks, Venice welterweight slugger. The special event will end Ralph Hernandez of Fullerton mixing with Leo O'Dara of Santa Ana in a six-round contest.

The four-rounders are Benny Diaz vs. Art Molino, and Albert Alvarado vs. Jimmy Valentino in the curtain raiser.

RABBIT
PUNCHES

BY
PAUL
LOWRY

THE demise of Georges Carpentier as one of the gladiators in Tia Juana's July 5 fistic festival was not at all unexpected. After the Frenchman's comparatively easy defeat at the hands of Tommy Loughran at Philadelphia last week it was natural that he should develop a sore paw you would expect the Tia Juana promoters to be hankering for. Just how terrible Carpentier must be as a fighter now is indicated by his knockdown at the hands of Loughran.

The latter has a reputation of being able to hit an egg with all his might without disturbing the contents thereof in the slightest degree.

As a matter of fact the Carpentier-Eddie Hoffman fracas had all the earmarks of a complete bust. The battle might have drawn some of the Los Angeles curious the shell of a once great fighter. That was the lone talking point of the match. That and the fact that Carpentier beat Hoffman by a slight margin in New York in what was described as quite a battle. This description, however, lost its punch when Power derpfuff Tommy Loughran spilled the Frenchman on his ear in Philadelphia. Hoffman has never been a drawing card around here unless thrown in with some fighter of color, and unless the Tia Juana promoters do the same thing they'll play to a lot of empty bleacher seats.

Here's summer on a single promoter about an open-air show. Quite a contrast to this time last year when Dick Donald had already staged one at Ascot. Jack Doyle had one ready for Maier ball park and rumors of many others filled the air. Now everybody seems to have settled down to a state of watchful waiting. Dick Donald has his ears pinned back for a good show, and "Mad" Wadhams is carefully scrutinizing the field for a bang-up engagement in the ball park. HAWAII YACHTS
DUE TO ARRIVE

Poinsettia Appears to Have
Edge as Race Closes

Final Two Hundred Miles to
Decide Winning Craft

Perfect Weather Favorable
to Breaking of Record

With ten days having elapsed since the start of the 2223-mile Hawaii yacht race, the appearance of the schooner Poinsettia, Mariner and yawl Poinsettia is looked for at Honolulu any day from now on. The larger yachts as far as known are well within a 500-mile radius of Diamond Head, and with continued favorable conditions should break the Mariner's record of eleven days and sixteen hours set in the 1924 race.

All three of the leading yachts are being picked to finish first in different quarters, with Walter Horne's 106-foot Poinsettia having an edge, according to her own record, which has been radioed from time to time. The Mariner, Don Lee's entry, is carrying such a heavy handicap that she may lose even though she finishes first. Clem Stone's Tera, which carries an advantage of three days, has an excellent chance of winning, as has James Dickinson's forty-foot schooner Jubilo with five days to the good.

TRICKY WATER

The waters in the vicinity of the islands are extremely tricky and the race may be won or lost in the last 200 miles. Whereas the larger boats will be retarded in the doldrums, a stretch of water 50 per cent calm, the smaller boats can make fair headway. With good luck, the Poinsettia may be able to spend a minimum amount of time drifting in the calm waters, but at the same time she may be caught for an indefinite period.

Approximately 100 miles or so off shore still remains again prevalent. If the sea is unusually rough, the Mariner may be able to batter her way into Honolulu under full sail, while the Poinsettia will have to shorten sail. Moderate winds would favor the Mariner, but a heavy blow would be sure to carry away some of her light gear.

The Poinsettia is somewhat handicapped through the loss of her light canvas, which was blown away in a squall. Two spinners were carried away and her spinaker boom smashed according to the latest reports, however, she is still making knots and expects to arrive in Honolulu either today or tomorrow.

CORINTHIANS SCRAP

By this time the strain must be telling on the officers and crew, and the last few miles should develop into a sailing match. "Doc" Wilson, a veteran ocean sailor, is skippering the Mariner, with Albert Soland, who has sailed in past races, as his navigating officer. The Mariner's crew is entirely Corinthian, a distinction enjoyed by none of the other yachts, and they are more than anxious to skin their fellow-Corinthians.

Walter Horne is skippering the Poinsettia with a professional crew of thirty men. Ted Geary, another noted Corinthian, is handling the Invader. W. O. Hays, the grand-daddy of all the skippers, is navigating officer on the Tera, while Dickinson is sailing the Jubilo.

From now on a constant watch will be kept day and night from the Diamond Head lighthouse. In case of setting in at night, each of the boats has a number which is to be flashed immediately upon coming in. The yachts will remain in Honolulu for a week, during which time the yachtmanship will be royally entertained. As soon as they arrive, the Poinsettia, Mariner and Invader will be gone over and a race back to San Francisco started as soon as possible.

ROPER, McCREER MEET
IN PASADENA BOUT

Jack Roper and Jack McCreer will fight the ten-round main event at the Pasadena Armory Thursday night in the first heavyweight battle of any class seen there in a long time. McCreer is now in great shape, as he proved last week at Fresno against the much-touted Chicago schoolboy, Lou Rollinger, whom he fought to a draw, having Lou on the floor at one time.

Other bouts on the Thursday night card are: Six rounds, Chappy Cruz vs. Young Polo, flyweights. Four rounds, Sid Bonifant vs. Frankie Abendano, 126 pounds; Harry Fitch vs. Billy "Red" Wells, middleweights; Dick McDaniels vs. George Rivers, 133 pounds.

Rare Turkish tobacco
give distinction to
Chesterfield's blend

For Chesterfields,
the best Turkish tobacco
— and nothing but the best!

Where does Chesterfield get its spicy tang, its delicate piquancy of taste and aroma? From costly Turkish tobaccos, world-famous for their distinctive character, their sheer excellence of quality. And how does Chesterfield get its mellow fullness and its satin-smoothness? From the way this fine Turkish is blended with the choicest Domestic leaf; carefully, shrewdly, in that can't-be-copied Chesterfield way that brings out the hidden flavors in each type of leaf. It took no end of skill and patient experiment to get this blend right. Was it worth it? Just smoke a Chesterfield and let the good tobacco speak for themselves!

Record Field of Stars Start Shining in California Invitation Golf Tourney

MORE THAN 450 PLAYERS
SIGN FOR ANNUAL EVENTInvitational
Week Brings
Mixed Play

The advance guard of the more than 450 golfers expected to qualify today and tomorrow will get under way early this morning in the annual California County Club invitational tournament.

Scores of the best amateurs in Southern California all of whom will be included in the record qualifying field, played practice rounds over the Culver City layout last week and found the course in wonderful shape. Considering the class of the field, scoring should be very good and the home club will have several representative contenders medaling through for the honor of the organization—and a lot of silverware that has just about set a standard for local invitational affairs.

The annual event has come to be the largest and best down-State invitational. Two years ago, more than twenty eight qualified and it was necessary to add the last eight brackets to the Hillcrest Club. Last year more than 400 entered the annual classic, establishing a down-State record for the third successive year—and the field this year promises to be greater than any before.

California is a very good club. The course is very fair—but the secret of the annual invitational success is in the hospitality organization. President E. R. Hunt has welded together an invitation to play in a California Club event is just the same as a personal summons to a lot of sport and good fellowship. Nothing is forgotten—the visitor is cared for from the time he reaches the club until he drives away. It is a great organization—a credit to golf and hospitality in Southern California.

Players will qualify according to handicap today and tomorrow. There will be ten flights of open match play Thursday and play will be permitted to play in an 18-hole medal consolation round. Friday, in addition to divisional trophies offered the winners of low gross and low net in the qualifying play, there will be cups for the winners and runners-up in each flight, also low gross and low net prizes in the added consolation round. A two-ball mixed foursome tourney that will also draw a record entry of more than 100 couples, will close California invitational week, next Sunday.

Advance scoring to date has been very good. Fay and Lester Coleman, together with Dick Smith and at least three other California members will furnish the stiffest kind of competition for visiting golfers. On the strength of recent play, George Cornes, with a 73 to low net, is qualifying field in the first annual mid-summer handicap tourney at his home club, Lakeside, has a very good chance in the medal play. Lakeside will have a fine entry in the invitational, composed of Cornes, Bruce Bundy, Jack Neville, Neal Burns, Chief Soldani, Ralph Ahrens, and others. Every club in this vicinity will be represented in the play, and the finale next Saturday should bring together two of the best golfers in Southern California. Post entries will be accepted by A. H. Painter, tourney starter, at the first tee, today and tomorrow. California is a good get-away course and there will be no congestion.

BUYING CONGESTION
BRINGS NEW BRANCH

As the result of an avalanche of buying orders at the Walter M. Murphy Motors Company headquarters, Hudson-Essex dealers a new branch, has been established in Hollywood. It was announced yesterday. The branch will be located at 8641 Sunset Boulevard, right in the heart of America's film drama capital.

Announcement in connection with the branch establishment was made yesterday by Richard F. Carlson, vice-president and general manager for Murphy, that W. J. McChes, former wholesale sales manager of the organization, has been appointed Hollywood resident manager.

PIGEONS IN FAST
500-MILE CONTEST

W. E. Godwin's racing pigeon made remarkable time in the 500-mile race held by the Southern California Racing Pigeon Association last Sunday when it covered the long flight soon after dark, being released in the northern part of the State in early morning. The bird was home at 8:31 at night for an average speed of 910.28 yards per minute for the flight. Other birds finished as follows: J. Michalak, 899.55; O. O. Mohr, 709.04; and J. Caliguidi, 410.20. A 600-mile race may be held soon.

WALKER LOSES TO
O'CONNELL IN BOUT

ROCHESTER, June 21. (AP)—Charley O'Connell of Cleveland won the decision over Archie Walker of New York in a 10-round bout here tonight. O'Connell weighed 137½. He scored three knockdowns. Walker weighed 137½.

Sub Barbara of Detroit, 140 pounds, defeated Oddy Demarco of Pittsburgh, 129½ pounds, by a decision in ten rounds.

CHICK SUGGS KAYOES
SPENCER IN MINUTE

UTICA (N. Y.) June 21. (AP)—Chick Suggs, New Bedford (Mass.) negro boxer, knocked out Wes Willie Spencer of New York, in one minute of fighting in a scheduled 12-round bout here tonight.

Fine Scoring
in Pro Golf
Tournament

E. T. McLaughlin of San Gabriel, and Cliff Castle of Wanamaker's, two of the best amateurs in the play yesterday, teamed for a best-ball aggregate of 66 to lead the record field of more than forty-five couples playing in the amateur-professional tourney that officially opened the annual invitational at the California club.

While it took a flock of strokes to return the amateur winners in the mixed event, Fred Matzie, club maker and assistant professional at California, playing with Lester Coleman, one of the best juniors in the club, were finishing with a best-ball aggregate of 66, to tie with Vic D'Alberto, assistant professional at Los Angeles and Capt. A. Bullock-Webster, of the Hollywood club, Northern California amateur champ, and Dick Linare, Long Beach municipal pro, playing with C. L. "Chief" Soldani, Lakeside amateur.

Dick Linare, runner-up in the Long Beach open last January, lead the pre field to capture first prize in the big gun sweepstakes event with an individual medal of 78. Rust Martin of Parkridge, and Vic Willie Hunter, Brentwood California open champion, scored mediocre 74's to tie for second money in the sweepstakes event. Harry Pressler, Hacienda, and Larry Gleason, Long Beach, tied for third with 75's. Tom Stevens, of the California club, the second local entrant in the national open, scored a 75.

The California course that has been carefully groomed for the invitational opening today, was in fine shape, but a stiff cross-wind formed a deceptive hazard that collected strokes from many cards.

Ernest Martin, former Montecito pro and his son, David, one of the best amateurs in this vicinity, lead the 70 bracket in the mixed event that also harbored Jack Tarrant, El Caballero professional, and Howard Hughes, Rancho amateur. Tom Stevens of California and his prize amateur, Fay Coleman; Frank Munnally, Girard assistant and Ralph Dold, Charlie Gust of Girard, the "Hage" of the west coast, and George Cornes, Lakeside's temperamental and hard-hitting amateur.

Complete scores in the mixed event were as follows:

66—E. T. McLaughlin and Cliff Castle.
66—Fred Matzie and Lester Coleman.
66—Vic D'Alberto and A. B. Webster.
66—Dick Linare and C. L. Soldani.
66—W. L. Hunter and Dick Smith.
66—Rust Martin and E. F. Spurr.
66—W. E. Godwin and G. L. Lewis.
66—Ernest Martin and David Martin.
66—Frank Munnally and Ralph Dold.
66—Harry Pressler and Larry Gleason.
66—Vic D'Alberto and A. B. Webster.
66—Dick Linare and C. L. Soldani.
66—W. L. Hunter and Dick Smith.
66—Rust Martin and E. F. Spurr.
66—W. E. Godwin and G. L. Lewis.
66—Ernest Martin and David Martin.
66—Frank Munnally and Ralph Dold.
66—Harry Pressler and Larry Gleason.
66—Vic D'Alberto and A. B. Webster.
66—Dick Linare and C. L. Soldani.
66—W. L. Hunter and Dick Smith.
66—Rust Martin and E. F. Spurr.
66—W. E. Godwin and G. L. Lewis.
66—Ernest Martin and David Martin.
66—Frank Munnally and Ralph Dold.
66—Harry Pressler and Larry Gleason.
66—Vic D'Alberto and A. B. Webster.
66—Dick Linare and C. L. Soldani.
66—W. L. Hunter and Dick Smith.
66—Rust Martin and E. F. Spurr.
66—W. E. Godwin and G. L. Lewis.
66—Ernest Martin and David Martin.
66—Frank Munnally and Ralph Dold.
66—Harry Pressler and Larry Gleason.
66—Vic D'Alberto and A. B. Webster.
66—Dick Linare and C. L. Soldani.
66—W. L. Hunter and Dick Smith.
66—Rust Martin and E. F. Spurr.
66—W. E. Godwin and G. L. Lewis.
66—Ernest Martin and David Martin.
66—Frank Munnally and Ralph Dold.
66—Harry Pressler and Larry Gleason.
66—Vic D'Alberto and A. B. Webster.
66—Dick Linare and C. L. Soldani.
66—W. L. Hunter and Dick Smith.
66—Rust Martin and E. F. Spurr.
66—W. E. Godwin and G. L. Lewis.
66—Ernest Martin and David Martin.
66—Frank Munnally and Ralph Dold.
66—Harry Pressler and Larry Gleason.
66—Vic D'Alberto and A. B. Webster.
66—Dick Linare and C. L. Soldani.
66—W. L. Hunter and Dick Smith.
66—Rust Martin and E. F. Spurr.
66—W. E. Godwin and G. L. Lewis.
66—Ernest Martin and David Martin.
66—Frank Munnally and Ralph Dold.
66—Harry Pressler and Larry Gleason.
66—Vic D'Alberto and A. B. Webster.
66—Dick Linare and C. L. Soldani.
66—W. L. Hunter and Dick Smith.
66—Rust Martin and E. F. Spurr.
66—W. E. Godwin and G. L. Lewis.
66—Ernest Martin and David Martin.
66—Frank Munnally and Ralph Dold.
66—Harry Pressler and Larry Gleason.
66—Vic D'Alberto and A. B. Webster.
66—Dick Linare and C. L. Soldani.
66—W. L. Hunter and Dick Smith.
66—Rust Martin and E. F. Spurr.
66—W. E. Godwin and G. L. Lewis.
66—Ernest Martin and David Martin.
66—Frank Munnally and Ralph Dold.
66—Harry Pressler and Larry Gleason.
66—Vic D'Alberto and A. B. Webster.
66—Dick Linare and C. L. Soldani.
66—W. L. Hunter and Dick Smith.
66—Rust Martin and E. F. Spurr.
66—W. E. Godwin and G. L. Lewis.
66—Ernest Martin and David Martin.
66—Frank Munnally and Ralph Dold.
66—Harry Pressler and Larry Gleason.
66—Vic D'Alberto and A. B. Webster.
66—Dick Linare and C. L. Soldani.
66—W. L. Hunter and Dick Smith.
66—Rust Martin and E. F. Spurr.
66—W. E. Godwin and G. L. Lewis.
66—Ernest Martin and David Martin.
66—Frank Munnally and Ralph Dold.
66—Harry Pressler and Larry Gleason.
66—Vic D'Alberto and A. B. Webster.
66—Dick Linare and C. L. Soldani.
66—W. L. Hunter and Dick Smith.
66—Rust Martin and E. F. Spurr.
66—W. E. Godwin and G. L. Lewis.
66—Ernest Martin and David Martin.
66—Frank Munnally and Ralph Dold.
66—Harry Pressler and Larry Gleason.
66—Vic D'Alberto and A. B. Webster.
66—Dick Linare and C. L. Soldani.
66—W. L. Hunter and Dick Smith.
66—Rust Martin and E. F. Spurr.
66—W. E. Godwin and G. L. Lewis.
66—Ernest Martin and David Martin.
66—Frank Munnally and Ralph Dold.
66—Harry Pressler and Larry Gleason.
66—Vic D'Alberto and A. B. Webster.
66—Dick Linare and C. L. Soldani.
66—W. L. Hunter and Dick Smith.
66—Rust Martin and E. F. Spurr.
66—W. E. Godwin and G. L. Lewis.
66—Ernest Martin and David Martin.

COOLIDGE ENDS TAX CUT HOPES

Declares Reduction Awaits Testing of New Law

Predicts Treasury Surplus of \$390,000,000

Assails Local Governments for Extravagance

(Continued from First Page)

The public service by elimination of waste and lost motion and by constructive conservation of our resources. The effort has not been to reduce the expenses of the government at the expense of the public welfare. It has been an effort for constructive economy. So long as the government remains the work will not end. That you may know the result of your collective effort it has been our custom to hold these meetings twice each year.

We can not anticipate further appreciable reduction in the total annual expenditure for the business of the government. Our main chance comes in debt reduction. It was estimated in the last budget that we would spend this year \$28,000,000 more than we spent last year. That estimate, as shown by the returns to date, will prove to be substantially correct. But this effort to perfect our governmental business, to round out the accomplishment of the task on which such a notable beginning has been made, offers unlimited opportunity for economical administration. Your best efforts and the continued support and co-operation of Congress will be required to hold our expenditures for government business at approximately their present level.

WISER SPENDING ESSENTIAL

We are not striving to save the dollar simply to save it. We are not striving to save the dollar at the expense of the public service. Rather do we approach it from the other side and save the dollar for the good that it will bring to the people whom we serve. We can make the dollar purchase more by purchasing more wisely. We can eventually save money by a justified expenditure today which will reduce future annual unproductive expenditures. This is constructive economy. Congress has more wisely provided a program of constructive economy in the two public building laws, one for domestic and one for our foreign legations. These measures will eliminate annual cost for rentals which bring us no future returns.

The recent act providing for construction at military posts and stations is also a measure of constructive economy. The funding of our public debt at lower rates of interest has been another notable achievement in constructive economy. Every dollar that has been applied to the reduction of the debt has saved the people of this nation and the generations to come, at least 4 cents per year in interest. Keep this in mind in your administration of public funds.

Every dollar that you save swells the surplus which goes to the further reduction of our debt. Thus every saved dollar saves at least 4 cents per year in interest to the taxpayer. In considering immediate projects or requirements you should have in mind their future benefit so that the element of possible constructive economy in contemplated expenditures may not be overlooked.

The budget system prescribed by Congress in 1921 co-ordinated our financial requirements. It paved the way for the co-ordination which now exists in the government's financial business. We are transacting our business in a co-ordinated and business way. If we have duplication or overlapping of departmental authority we are minimizing the possibility of waste in effort or expenditure by co-ordination of policy and action. The improvement in the public service is apparent and expressive. It is apparent in the reduction in which its business is being transacted. It is expressive in the lessening of the burden of the administration. The budget system is not the system of any one agency in the public service. Each of you in the public service is an integral and important part of this system. Your allegiance to it is inseparable from your allegiance to the Federal government. And this includes the accounting elements of the budget system vested in the general accounting office.

As a natural sequence to the law adjusting the compensation of civil officers and employees of the government the Congress has recently enacted a law to reduce their allowances. This law provides adequate rates of reimbursement for expenses. It does justice to both the traveler and the government. The new law takes effect July 1, 1926. I wish to direct your attention to the provisions of this law which are authorized by the heads of the departments and establishments to the extent of a deficiency in appropriations during the fiscal year, 1927.

RECORDS ACCOMPLISHMENTS

At this eleventh meeting of the business organization of the government, it is proper to recount briefly the accomplishments of these last five years in which your efforts have played such a material part. It is for this purpose and to define plans for the immediate future that we hold the conference.

On June 30, 1921, the public debt amounted to \$23,977,000,000, carrying an annual interest charge of \$1,616,000,000. At the close of this year the debt will stand at approximately \$19,450,000,000, with an interest charge of \$1,000,000,000. This shows since 1921 a reduction of nearly \$4,500,000,000 in the principal of the debt, and nearly \$1,200,000,000 in annual interest. Our expenditure, which for the fiscal year 1921 amounted to \$2,228,000,000, was approximately \$2,000,000,000 for the current year. This represents a reduction of nearly \$2,000,000,000. Taxation has been reduced from \$2,514 per capita to \$27.28. This does not take into consideration the revenue act of last March.

While these figures speak for themselves, their real import lies in the influence which these reductions have had on the welfare and prosperity of the people. This influence goes far beyond the material reductions I have mentioned. It reaches into every phase of the daily lives of the people. There are more of the necessities, conveniences and luxuries in the homes of the people, in the city

and in the open country, because the government has let the people have more of the money they earn for themselves instead of taking so much from them in taxes.

SINCE the commencement of the fiscal year 1921 there have been three substantial reductions in taxes. The benefit of this joint executive and legislative effort to reduce Federal expenditures has, therefore, gone directly to the people. At our meeting one year ago it was my privilege to state that the financial condition of the government warranted further tax reduction. That forecast has been realized in the revenue act of 1925. The large tax receipts of March 15, last, show clearly that the country anticipated a reduction in tax rates. Individuals who had undistributed profits in securities and investments took their profit under the expected reduction of the surtax rate. It was this same anticipation of tax reduction that prompted investment in the productive business of capital which would otherwise have gone into tax-exempt securities. The great increase in revenue was due in large measure to the unusual prosperity of the year 1925, but the confident expectation of a reduction in rates was an important factor of this revenue increase.

MILLIONS PAY NOTHING

The 1926 act relieved some 2,000,000 people from paying any direct tax, and reduced the tax burden of all other taxpayers. General prosperity in the aggregate of the individual prosperity of our citizens. To permit the people to retain more of their own earnings is to increase their savings and purchasing capacity, which assures prosperity. In 1921 the income tax was \$120; in 1922 it was \$25.50; while in 1925 it is only \$16.88.

Miscellaneous war taxes were also materially reduced. These taxes were levied under more than fifty categories, which are now reduced to five. This removal in large measure the so-called nuisance taxes which have been found so irritating to everyone. The revenue from these taxes is reduced by about \$275,000,000, and there are no compensating increases in the case of the income and profits taxes.

Incorporated business has been

benefited directly as well as indirectly by the repeal of that tax based upon the value of the capital stock of the corporation. Many concerns with not 61 of profit were obliged to pay a large tax. This was unfair as the ability of a corporation to pay depends upon its profits. Fully 60 per cent of the corporations making income-tax returns have no profits or taxable incomes, but under the old law they were obliged to pay.

LAW MUST BE TESTED

What the complete result of the 1926 tax law will be is still a matter of estimate. The correctness of the theory that reduction of tax rates economically applied will stimulate business, and thereby increase taxable revenue, is being demonstrated. To what point further reduction may be carried cannot be stated until the new tax law has had sufficient opportunity to become fully effective, and experience has shown what revenue it will produce.

The question is on the lips of many as to whether there is prospect of another tax reduction in the near future. I think the answer to this question should be delayed until we know definitely the revenue-producing ability of the present revenue act. The estimate today is that we will close the current fiscal year with a surplus of about \$390,000,000. This cannot be safely considered as an indication of what revenue the present law will give. Our revenue this year from income and profits tax includes about \$200,000,000 of back taxes, most of which accrued in years prior to 1926. We do not anticipate such accrual of back taxes in the future. Rather will they materialize only to the extent of an estimated total of only about \$100,000,000 in 1928.

It would be unfortunate to raise hopes of further tax relief until we are sure that the state of our finances justifies it. There is no such surety today. Business was quick to anticipate the last tax reduction. It was justified in so doing. To raise such hopes at this time might be to anticipate the last tax reduction, again, as it did in 1925, further tax reduction. This might have a detrimental effect upon the stabilization of the country under the present tax law.

You have your appropriations for the next fiscal year. I have previously stated our effort must be not to increase expenditures over

What they will be for the current year. Rather do the latest estimates for next year indicate that it may be possible to spend less than in 1926. The survey which has been made of our requirements indicates the possibility of reaching a minimum of \$6,600,000,000 in our expenditures next year. This will be our objective. For the coming fiscal year the estimate indicates that we will have a margin of \$183,000,000 in revenues over expenditures if the latter do not exceed the figure I have stated. A surplus of only \$183,000,000 in a business involving an annual expenditure in excess of \$6,600,000,000 is far from being a safe margin.

MINIMUM MAY BE CUT

We are approaching the time for consideration of the estimates of appropriations for the fiscal year, 1928. I have expressed to the director of the Bureau of the Budget the hope that these estimates can be kept within a limit of \$6,200,000,000 exclusive of the postal service and tax refunds. It may become imperative before the budget is finally completed substantially to reduce that figure. This will depend entirely upon our revenue outlook for 1928, concerning which we will have better information a few months hence.

SAALARIES COSTLY ITEM

I have spoken to you often on the subject of personnel. Our salary and wage expenditure is the most costly single item of the budget. While the postoffice department has necessarily had to increase its personnel with its growth of business we have been decreasing personnel elsewhere. It is very easy to have too many people on the pay roll. The reductions which have been made in personnel show no detrimental effect upon our results. Rather has it seemed to improve the efficiency of the service. I am encouraged in the thought that we can have further reduction of personnel without discharging a single person, by the simple device of not filling all the vacancies that occur. This would not operate in the summary separation of anyone from the Federal service. Gen. Lord will outline to you a plan to carry this into effect, which has my approval.

NO DOUBT what has been accomplished by the Federal government has served as an inspiration to some local political units in reducing their governmental costs, but it is not disclosed by the aggregate for all of them. From 1921 to 1925 the Federal government reduced expenditures more than \$2,000,000,000. The same period showed an increase of more than \$4,000,000,000 in State, county, municipal and other governmental expenditures. In 1921 when the cost of all government increased to more than \$11,500,000,000, of which only 27 per cent is represented by Federal expenditures.

THE ANSWER to this reduction of 33 per cent in the Federal share of all governmental costs is not that we are performing less service for the people or neglecting our physical plant. The real answer is that we have so far put our house in order as to decrease our demands upon the people and to give them more efficient government at less cost. The local governments, like the Federal

government, have no moneys which they do not take from the people. To meet an increase of more than \$1,000,000,000 a year or four years in the expenditures by the States and their political subdivisions there must have been a corresponding increase in levies upon the people or in bonded indebtedness.

There is cause for concern in this situation. It is fraught with grave consequences to the public welfare. The Federal government has decreased its costs by practicing the honest virtues of thrift. This has not been an easy task. It has required co-operation in levies upon the people or in bonded indebtedness.

more saving of money. We ought to use money as we use any other utility—to advance the welfare of the human race. Money is not endowed with any sacred quality. Man was not made for money, but money was made for man. It has become absolutely necessary in these days of dearth of population, and under an advancing system of co-operation by society, for what was once a purely private function to take on more and more the character of a public function. Into the making of that re-justifying with the whole situation by raising such revenues as the people can fairly bear to meet such expenditures as are fairly required. To results are systems to provide transportation and communication, improved sanitation, public order, administration of justice, necessary legislation, advancing educational facilities, and the development of the artistic and spiritual side of life. These provide an even balance for the support of an enlightened civilization. The result is American must meet and must meet its patriotic service and devotion are contributing factor of enormous importance.

THE OFFICE of Director of the Budget has been established in order to provide an advisory staff to the President, the Congress, and the various departments in their efforts to meet these requirements. At its head is Gen. Lord. The law has clothed him with some authority, but far greater authority is derived from the character of the man. His ability and integrity inspire confidence. He has laid out plans for constructive economy.

When I say his plans have not been carried out but actually improved upon in the Congress under the leadership of Representative Madron and Senator Warren, I mean to extend very high praise to those two seasoned legislators. These three men are representative of the spirit which has made our budget system a success.

CHESTERFIELD BED**

A BED IN AN INSTANT
Holds mattress, pillows and bedding, fully made.
You sleep high off the floor in the pure air.
No bars or boards under mattress springs to strike on.
(Beware of uncomfortable overstuffed bed imitations.)

BELL BEDS

NOT SOLD TO STORES

You Will Need This Wonderful Bed to Accommodate Your Summer Guests

Many people have been coaxed into buying imitations; don't you be one of them. This great 1924 discovery has taken the country by storm, because it's just what the public needed. For over 50 years inventors and manufacturers had been struggling to discover the secret way to place a full-size regular bed in a Chesterfield without interfering with the comforts and elegance of either, and we were the lucky ones. Come and see them demonstrated.

WORLD-SPITE GERM SOUGHT

Ad Clubs to Diagnose Ill
Will Toward America

Planned to Free Business of
Mistrust Handicap

Coolidge Sends Greeting to
Philadelphia Meet

PHILADELPHIA, June 21. (AP)—A world survey designed to diagnose the cause of ill-will toward the United States was proposed at the general assembly of the Associated Advertising Clubs of the World today.

Bruce Barton, New York, suggested that the members offer their services to the United States Chamber of Commerce for the purpose of conducting the survey.

He also suggested that the finding of the investigators be spread before the American people to the end that the causes of this distrust and resentment may be removed in so far as it is within the power of American business to remove them, and that the business men of the world may co-operate in the establishment of a new basis for confidence, security and peace.

The convention received warm greetings from President Coolidge, who said he is sure it "will bring a fuller sense of the duties, as well as the advantages, which advertising carries with it."

Dr. Marcel Knecht, secretary of Le Matin, Paris, brought the greetings of the French press and said that the newspapers of France have the keenest desire to be more and more informed about the United States.

Rayard Dominick, speaking on the work of better-business bureaus, criticized the "budget shop" operator the salesman of worthless securities and the organizer of "fly by night" stock companies.

"The better-business bureau does not stand alone," he said, "it aids the government department in ferreting out these men who scheme and devise nefarious ways to bleed the small investor of his money."

Edward E. Jordan, Cleveland, said the saturation point in the automobile industry would never be reached as long as there is any one who does not own a car and none of those in use wear out. There were 20,000,000 cars sold in the United States last year and only 5,000,000 throughout the rest of the world.

Through their tireless efforts and continuous fight for "truth in advertising," Sir Henry W. Thornton, president of the Canadian National Railways, told the convention that the members of the advertising clubs had done more than any other factor to establish in the business world the faith of the buyer in the honest purposes of the seller. Proper advertising, in its instructive aspect, the speaker said, was the foundation of successful business.

"Business," said Sir Henry, "has assumed a new aspect during the last quarter of a century. The days of bartering and trading have disappeared. New and more cordial relations exist between the seller and buyer and a new confidence in the integrity of each has developed. Business today, whether in the sale of brains, in the industrial field or in the dispensing of that service which a railroad has to sell, is founded on integrity, fair dealing and truth, and to you who have become such an important factor in modern business affairs I pay a well-merited tribute."

BY ROBERT J. FRITCHARD

The Clearwater district, which two years ago was one of the most active wildcatting districts in California, is again to be tested for oil. A new corporation to be known as the Clearwater Petroleum Company, holding a tract of 250 acres, expects to start in its first test well this morning. Featherstone & Preston, successful long beach operators, are the morning spirits in the project. It is understood, and besides owning a considerable block of stock in the new company, will do the drilling.

The new Clearwater wildcat will be drilled about one and one-half miles east of the town of Clearwater and about one-half mile from two dry holes which were drilled about two years ago. The Huntington-Devery Syndicate's old test well was drilled about one-half mile west of the new Clearwater well and drilled to 4750 feet. No important showings were found, it is said. Another barren project was the Quill well drilled by the Superior Oil Company, which went to about 3500 feet without discovering anything in the way of oil, and was abandoned. This well was drilled about two years ago, and about one-half mile north of the Featherstone & Preston well.

Featherstone & Preston have been among the most successful operators in the Los Cerritos area of the north-west extension of Signal Hill. They have placed several wells on production in that field, one well in the deep zone, with a second on the verge of completion in the deep sand.

Down 2900 Feet
Calculations based on a count of the stands of drill pipe in the derrick of the Wilshire Oil Company at Huntington Beach indicate that that well is drilling ahead at about 2900 feet. The Wilshire company is putting out no information at the moment, but has excluded all persons except members of the crew and officials of the company from the derrick, with strict orders to divulge nothing concerning depths or formations. General knowledge of the geological conditions of the district, however, is sufficient to give a fairly good idea of the progress of the Wilshire well, and oil men do not expect the well to find much in the way of oil sands until it gets down to around 3200 feet.

So far the Wilshire well is the only active drilling project in the west end of the city of Huntington Beach. The Julian Petroleum Corporation's well is idle after making a technical spud in order to hold the lease, and the Superior Oil Company is still rigging up machinery. The Superior well probably will begin drilling this week.

Recent Trust Well
The Union Oil Company is re-completing its Trust No. 2 well in the northeast corner of its Trust property in the central area of the Rosecrans field. During the production test over the weekend, the well was bailed down to below the shoe of the casing at 8222 feet, where it developed a slight showing of oil, but with no indications of gas. The water at that point was decidedly salty and evidently coming from a leaky cement job. Accordingly a new attempt for a water shut-off is being made.

Well Makes 200 Barrels
George W. Johnson's No. 3 well in the Los Cerritos district, northwest of Signal Hill, is on production at the rate of 200 barrels per day, according to field reports. It is located near Highway Road and Cedar Avenue, and was finished Saturday morning in the McKee zone. Bottom of the well is at 4840 feet.

Make Production Test
The York & Smullin Drilling Company in the Redout Heights district north of Whittier is making a production test of their wildcat well at 1935 feet. Some showings have been found at this depth, as was generally expected, this being the approximate location of the upper zone in this field, which has been found by a number of previous wells. Oil men who are interested in this district are watching the progress of the well, but expect York & Smullin to resume drilling and go after a deeper zone, after their preliminary test at 1935 feet.

Gets New Well
The Union Oil Company has completed a new well on its Stearns property in the Three-Oilinda field, where the Union is carrying on an active drilling campaign. Stearns No. 68 was completed at a depth of 2707 feet, flowing by heads at the rate of 400 barrels per day.

The Stearns lease is one of oldest producing properties in the entire Three-Oilinda district, and new operations have been comparatively few until a few weeks ago, when the Union started a drilling campaign involving several wells in the zone. Besides the new producer, the Union now has five active drilling projects on the Stearns property.

Back From Colorado
Frank F. Hill, general field superintendent of the Union Oil Company, returned yesterday from a trip to Denver, Colo., where he addressed a meeting of the standardization committee of the American Petroleum Institute.

Resumes Drilling
The Milham Exploration Company is again making hole after setting a string of casing in its wildcat well at Playa del Rey, according to field reports. The well is down about 6400 feet. No important showings have been found in the well, it is said, with the exception of slight indications of oil and gas at about 5800 feet. This is the second deep test to be put down in this area by the Milham interests.

VICTIM BITES OFF FINGER OF BANDIT

CHICAGO, June 21. (Exclusive)—Two bandits held up John Scharl near his home early this morning and robbed him of \$25, but one of them paid a high price for his share in the enterprise. One of the bandits in endeavoring to put a finger in Scharl's eye, a quick-tempered victim, made the mistake of running his finger into the victim's mouth. Scharl immediately took it off near the second joint. With a howl of rage and pain the robber released Scharl and fled. Scharl went to the nearest police station and reported the incident, exhibiting the severed finger as proof.

March established a new record in General Motors' History -but April beat March -and now May has beaten April -141,651 cars

The experience of the last ten years indicates that April is the record month in retail automobile sales; and that May's sales should be only about 70% of April's.

When, therefore, the retail sales of General Motors cars in April of this year reached the unprecedented total of 136,643 cars, it was reasonable to assume that this would be the high mark, and that May would show a smaller total.

But May, instead of registering a decline, leaped ahead of April with sales to the public of 141,651 cars.

What do these mounting records indicate?

First, that general business conditions are fundamentally sound. The increases in General Motors' sales are not sectional, nor limited to certain territories. They are nationwide; indeed, world-wide.

Second, a growing public recognition of these four General Motors principles: (1) Quality first and foremost. (2) The economies of a big organization passed on to the purchaser. (3) Low finance charges and fair terms. (4) Performance, appearance, comfort and safety, combined to give maximum value in each price class.

RECTOR AT REDLANDS ACCEPTS PHOENIX CALL

PHOENIX, June 21. (Exclusive)—Rev. Edwin Seiden Lane, for several years past rector of Trinity Church, Redlands, has accepted a call to be dean of Trinity Cathedral in Phoenix. He is a graduate of Yale and of the General Theological Seminary, New York, has a master's degree from Columbia and has studied abroad at Oxford, Berlin and Tubingen. He had service as a chaplain in the late war. Before going to Redlands he was rector of the Church of the Epiphany,

Los Angeles. The formal call to Phoenix was made by Bishop Walter Mitchell of the Arizona missionary diocese of the Episcopal Church, following a visit to Redlands of a committee from the vestry of Trinity Cathedral.

AMERICAN WOMAN ATTACKED IN CHINA

PEKING, June 21. (AP)—The British Consul at Chengtu reports that the 8th inst., an American woman, Miss Manly, was dragged from the rickshaw in which she was riding, by an unnamed Chinese who tried to strangle her. Miss Manly was slightly injured. She was rescued by bystanders who handed over her assailant to the police. As a consequence of representations of the Consul, the authorities at Chengtu issued a proclamation saying that any Chinese found molesting foreigners would be immediately shot.

POWER PLANT PURCHASED
FARMERSVILLE (Tex.) June 21. (Exclusive)—Purchase of the electric light and power plant of the Farmersville Mill and Light Company by the Texas and Louisiana Power and Light Company is announced. This plant was one of the first to be installed in Texas, its operation dating back to 1880.

FIVE DESERTERS FROM STEAMER CAPTURED

VANCOUVER (B. C.) June 21. (Exclusive)—Of the ten deserters from the crew of the Italian steamer *Burma* while in port here a month ago, five have been captured. Three of these were picked up in Seattle and deported from there. Two were caught by immigration officials at Powell River and will be deported next week. The immigration authorities are still looking for the other five, but information at hand indicates that two of these men went to Portland.

 "Well, sir, I mean to tell you that you're looking on one of the oldest inhabitants of March county. Why, my family settled there when they was'n't no more than two Fords in the whole State."

Formulae for the Great American Short Story

By Dorothy Parker

THE hero will not propose to the heroine because she is the daughter of James R. Patterson, known as "Iron Jim," and, consequently, she is heir to one of the greatest fortunes in America. He eventually does.

Mr. and Mrs. Billy Curtis, members of the young married set of Hiasadale, are gradually drifting apart, owing to bridge, cocktails, motoring, fox-trotting and golf. On the night of the Country Club dance Billy, Jr., is stricken with a fever. Mr. and Mrs. Curtis find reconciliation and the dawn of a new life at his crib-side. Billy, Jr., recovers.

A Ralph Sedgwick, cub reporter, stumbles upon the greatest news beat the Morning

Planet has ever known. He wins the grateful tears of the gruff old city editor, and the hand of the daughter of the banker whose name he clears of suspicion.

A Mrs. Irwin Godfrey, stifled by riches and misunderstood by a husband absorbed in business, plans making a break for the Riviera with Norman Keating, the artist, who is ten years her junior. She does not go through with it.

A Tommy Deering, half-back on his college eleven, cleans up \$150,000 in advertising and the affections of his boss's daughter.

WILLIAMS PLAN

TO ASSIST HONEST WORKING PEOPLE

UNTIL A FEW YEARS AGO PERSONS IN THE UNITED STATES WITHOUT PROPERTY or gilt edge collateral, regardless of how good their character or how great their earning ability, had no credit in a business sense. If credit was extended to them, it was given as a personal favor. They could cast their ballot and contribute their portion of tax levies, but they could not borrow a dollar without paying the loan shark's ruinous rate of interest or applying to some charitable loan agency or friend.

The WILLIAMS PLAN COMPANY OF LOS ANGELES was created to meet the demands of these people. The Company is officered and managed by some of the best business men and financiers. They will confine their efforts to loaning money to wage earners, salaried men, women, business and professional men at a legal rate of interest. Loans average around \$200, varying from \$50 to \$2000. PAYMENTS MAY BE MADE IN SMALL WEEKLY OR MONTHLY AMOUNTS ON OUR CERTIFICATE PLAN, MAKING POSSIBLE A COMPLETE SETTLEMENT OF THE LOAN WITHIN ONE YEAR.

Loans will be made on the basis of CHARACTER AND EARNING ABILITY. It will not be necessary for you to have collateral or property.

If you are HONEST and need money for ESSENTIAL purposes, or have managed to get into debt and need financial assistance, call on us.

MORE THAN TWO HUNDRED MILLION DOLLARS is loaned annually in the United States on this plan with a loss ratio of less than one-tenth of one per cent.

BUSINESS AND PROFESSIONAL MEN have been greatly benefited by this plan as funds become available for the liquidation of their slow accounts.

You are cordially invited to call as a patron or guest. Further information cheerfully furnished.

HYDRAULIC MINE PLANS REVIVED

Monster Dams Projected to Protect Farmers

Work Previously Shackled by Injunction

Proposition Also Provides for Flood Control

SACRAMENTO, June 21. (AP)—A California giant, shackled for forty-two years, is beginning to show signs of recovery. The giant is hydraulic mining, shackled by the Sawyer injunction, and the \$600,000,000 in gold, estimated to be in the gravel of Sierra, Plumas, Nevada, Placer, Eldorado, Mariposa and Calaveras counties, is in a fair way toward being recovered.

This is the statement made by Lloyd L. Root, state mineralogist, who reports that efforts are being made to revive hydraulic mining in California in such a way as to protect farmers in the valleys and lower streams users from the deluge of debris which, under the old plan, swept downstream, filling channels and raising river beds to the detriment of farmers and others.

Monster dams on the Tuolumne and tributaries, the Bear and the American rivers, to cost approximately \$60,000,000 and to be of such size that the debris coming downstream will fill only about 10 per cent of the space are contemplated to revive the giant.

For two and one-half years engineers have been making surveys and plans for the revival. They have estimated the amount of gold-bearing gravel and found that \$400,000,000 of the \$600,000,000 still in the ground is in the gravel of Sierra, Nevada and Placer counties. Dam sites have been surveyed and other steps taken.

It is proposed to obtain the \$60,000,000 from the United States government as a loan provided for in the Crampton Act passed in 1916 to provide for the restoration of hydraulic mining in California.

Besides allowing hydraulic mining, the plan, Root says, would take care of flood control and obtain an adequate supply of water for irrigation and power purposes.

"A series of dams will be constructed in the mountains," he declared. "These will store this water in the winter months and release it in the summer, just when it is needed downstream."

Court Refuses Case Rehearing to Mining Man

SAN FRANCISCO, June 21. (AP)—The United States Circuit Court of Appeals today denied a rehearing to Gordon Campbell, nationally noted mining engineer, who was found guilty in Montana on a charge of using the mails in an attempt to defraud in connection with the stock-selling operations of the Gordon Campbell-Kevin syndicate. Campbell was sentenced to a prison term. The court recently denied Campbell's appeal and he petitioned for a rehearing.

MORE THAN HALF A CENTURY OF PROGRESSIVE BANKING SERVICE

Service to the men of the soil!

THE word "Farmers" was put into the name of this bank when it was first organized, in 1871, to indicate that it offered a service of special interest to the farmers of Los Angeles and neighboring counties.

Within a short time, practically every farmer of means in the region had opened an account. Farming was for the first time in Southern California history, really making headway.

Wheat and barley were being raised more and more extensively in San Fernando Valley. Pomona and other communities were established as fruit centers. Irrigation came and with it the culture of olives, deciduous fruits, grapes, wheat and barley increased rapidly.

Twelve years after the opening of the bank, California oranges took the prize at the New Orleans Exposition in competition with Florida oranges. From then on citrus fruit growing expanded by leaps and bounds until in 1890, the output reached over 1,000,000 boxes. In 1925, it was 50,000,000 boxes!

The name of this bank is just as significant as ever. Today it counts among its depositors many and many a prosperous owner of farms and orchards because it continues to offer them a service which they value.

Santa Barbara

Business, Home and Farm...

... carry out the typical architecture

It's a wonderful sight! That Santa Barbara architecture... wherein is retained the influence of early California days.

Ocean view homes from slight elevation. Farm houses with mountain background—and a foreground of prolific vegetation. Stores, shops and studio and innumerable patios.

Everywhere the heralded and most beautiful architecture is found. Surely, no visitor can sanction the thought of not seeing. Certainly no California

resident wishes to be minus this picture in mind.

Artists delight in putting these scenes on canvas... well do they do it... but actually seeing this beautiful city is worth the time of everyone.

Hotel accommodations are excellent. Nearly 40,000 people today. Opinion is that five years will bring 100,000.

The answer is enthusiasm and great opportunity. Hence... unlimited money making for those who will ask a few questions and investigate. Business men and professional men... all stand ready without bias to answer freely things you may wish to know.

NEW OFFERINGS IN LOCAL MART

Seven Utility Issues and One
Industrial Included

Five Totalling \$17,000,000
Available Today

Aggregate of Financing Put
at \$25,000,000

New financing scheduled for offering in this market consists of seven public utility issues and one industrial, aggregating approximately \$25,000,000. Five of the issues will be offered today, totaling \$17,000,000.

The only industrial offering announced is that of \$2,000,000 Manhattan Refrigerating Company first mortgage sinking fund 5 1/2 per cent gold bonds, serial A, due 1941, to be marketed today by a banking group headed by E. H. Rollins & Sons and including Arthur Perry & Co. and Tucker, Anthony & Co., at 97 1/2 and accrued interest to yield 5.75 per cent.

Construction of several new extensions of the lines of the subsidiary companies of the American Public Service Company will be financed in part by the proceeds of an issue of \$2,000,000 American Public Service Company first lien 5 per cent bonds, Series C, due December 1, 1942, which will be offered today by Halsey, Stuart & Co. and A. B. Leach & Co., at 98 and interest to yield 5.55 per cent.

The Harris Trust and Savings Bank and A. C. Allen & Co. are offering an issue of \$4,000,000 Cumberland County Power and Light Company first mortgage 4 1/2 per cent bonds, due June 1, 1930, at 94 1/2 and interest to yield 4.82 per cent. The company supplies without competition electric light and power in Portland, Me., and fifty-four other communities in Cumberland and York counties, Maine.

An issue of \$2,500,000 Union Water Service Company first lien 5 1/2 per cent gold bonds, Series A, due May 1, 1931, is being offered by G. L. O'Brien & Co., Inc., at 97 1/2 and interest to yield about 5.70 per cent. Offering of a new issue of \$500,000 Consumers' Water Company first lien gold bonds, Series A, due May 1, 1945, is being made by H. M. Payson & Co., Portland, Me., at 98 1/2 and interest to yield 6.12 per cent.

W. C. Langley & Co. and Bonbright & Co. will offer shortly an additional issue of \$1,500,000 Long Island Lighting Company first and refunding mortgage gold bonds, Series B, 5 per cent, due September 1, 1935. An issue of 15,000 shares of Interstate Power Company 8 1/2 dividend preferred stock will be offered soon by Fynchot & Co., West & Co. and W. H. Hammond & Co., to reimburse the company for expenditures and improvements to physical properties and for other corporate purposes.

The East Bay Water Company has just made application to the Railroad Commission of California for permission to issue and sell \$250,000 of uniting and refunding first mortgage 6 per cent gold bonds, Series E, dated March 1, 1928, and maturing March 1, 1948; also to issue \$2,750,000 par value of Class A 6 per cent cumulative preferred stock.

New financing in connection with the consolidation of the twenty-nine public utility properties of Pitkin Utilities in the Middle West into what will be known as the Inland Power and Light Company, is expected on the market here early next month.

Southeastern P. & L.—6's

System serves practically all the urban population and industrial power requirements in Alabama; also parts of Florida, Mississippi and Georgia.

Earnings 3 times interest charges.

Precedence over stock valued at \$95,000,000.

Price 95 to yield 6.30%

Details on Request.

SMALL LOTS IN STEEL AND IRON TRADE

Coast Market's Prices
Firm and Tendency to
Shade Levels Reduced.

BY DON PARTRIDGE

(Associate Editor, Western Construction News.)

Western Construction News will say this week, in summing up the condition of the Pacific Coast iron and steel market, "Trading has been confined, with few exceptions, to small spot lots. Outstanding amounts were 2000 tons for an apartment in Los Angeles and 1700 tons for a pipeline in the Tacoma area. Prices are firmer and less tendency to shade the prevailing levels is noted."

"Concrete bar awards totaled more than 1700 tons and included 800 tons for an addition to the Montgomery Ward & Co. plant in Oakland and 600 tons for the Sunset Tunnel in San Francisco, both placed with a San Francisco jobber, and 170 tons for a building on Otis street, San Francisco, booked by Badt-Falk Co. Pending business is of fair proportion, but the carriers' strike in the bay district is holding up much new work."

"Steel Tank & Pipe Co. obtained the Tacoma pipe-line project, involving 1500 tons of plates, and will build it along the same general specifications as for the Bay Municipal Utility District pipe line at Oakland, which called for 75,000 tons. The company also obtained 100 tons for the Philbrook reservoir for the P. G. & E. Pitt River project. Lacy Mfg. Co. booked 100 tons for a pipe line at La Mesa, Cal. Pending business totals more than 6000 tons. The only new inquiry of the week involves 100 tons for a penstock for the P. G. & E. Pitt River plant. At least one mill this week advanced \$1 a ton on plates, and is now quoting 2.90 c.i.f. which seems to be the prevailing level, although a 2.30 quote is reported having been received in the early part of the week."

"Electricity from Works obtained the largest structural shape award this week that has been placed in more than two months. This involved 200 tons for an apartment in Beverly Hills, Cal. Awards aggregated more than 2000 tons. The Judson Mfg. Co. booked 100 tons for the Woodrow Wilson school, Oakland, and 120 tons for a garage plant in Oakland. Pending business calls for more than 11,000 tons, new inquiries of the week including 950 tons for Pier No. 11, Honolulu. Prices are firm at 2.350 c.i.f. and an advance of from \$1 to \$2 a ton is expected in the near future."

"B. Nicoll & Co. obtained the only cast-iron pipe award this week, calling for 130 tons for Alhambra. Pending business is by no means heavy, less than 2000 tons being up figures. N. O. Nelson Mfg. Co. booked 285 tons of Matheson joint pipe for Los Angeles. The Pacific Gas & Electric Co. has an inquiry out for 500 tons of five and eight-inch standard pipe."

INSURANCE SALES UP

Life Business of First Five Months in Large Gain

NEW YORK, June 21. (AP)—Life insurance purchased in the United States in the first five months this year is estimated at \$3,487,442,000 by the life insurance sales research bureau of Hartford, Ct., an increase of \$155,469,000 over the same period of 1927. Every section of the country shared in the general gain. Sales for May amounted to \$735,724,000 which, the bureau reports, was virtually identical with May, 1927. Canadian purchases in May were 10 per cent ahead of the same month last year.

EXTRA DIVIDEND ANNOUNCED

California Bank Earnings High for First Half of Current Year

An extra dividend of \$1.50 a share, in addition to the regular quarterly dividend of \$3 a share on the capital stock of the California Bank, was announced yesterday by the board of directors. The extra distribution is made possible by high earnings for the first half of the current year, President A. M. Chaffey explained.

The California Bank, as of the last call, April 12, last, showed total deposits of \$81,126,709.04, and aggregate resources of \$87,596,302.05. Loans and discounts were reported at \$35,598,175.99, and cash and sight exchange at \$38,214,872.82.

NEW UNION RUMORS AFLOAT

Lack of Confirmation Disturbs Traders; Papers All Signed, Says Report from San Francisco

BY EARLE R. CROWE

Like all mysteries the Union Oil affair will soon lose its interest, unless something of a tangible nature occurs. They will either have to produce the buyer or admit that there wasn't any mystery after all.

PRICE DROP IN COTTON WITH RAINS

Decline Brings Most of
New Crop Months Down to
Levels of 12th Inst.

NEW YORK, June 21. (AP)—The break in the drought in the Atlantic States over Sunday by good rains in parts of the Carolinas and Southern Georgia, caused so much fresh scattered liquidation and speculative selling in both Liverpool and here today that cotton prices went lower from the opening.

The maximum decline here was about 20 points on the active trading month or about \$1 a bale from Saturday's closing. It brought most of the new crop months down to the new levels previously reached on the 12th inst. October falling at 10 1/4 cents; December, 16.30 cents; March, 16.34 cents. July being the spot month here held up better, declining only 16 points and selling as low as 17.67 early in the afternoon. After the selling pressure subsided a rally of 5 to 10 points followed, due mostly to profit-taking by shorts. Local trade sentiment continued somewhat against the market, with the spot rains along the Atlantic more than offsetting the adverse sentiment influence of further undirected showers in Texas.

Liverpool futures closed weak near the lowest at 15 of their points net decline on July for the day and 10 to 8 for the new crop months against but 1 to 2 due.

NATIONAL BANK OF CALIFORNIA

Co. COMPANY

Due June 1, 1941. 1) without deduction for Normal Federal Tax Co., San Francisco. Callable as a relative Participating Preferred Stock on the bonds and 100 for the stock.

From his letter to the undersigned: quality, was organized in San Francisco, California, in 1927, by purchase of about 300 gallons, the San Francisco. In addition, the company owns a separating and ice plant at Newman, Rosa, San Rafael, and Vallejo. During plant at Oakland, and a 20-ton plant in over a 10-year period, as follows:

20 to 26), before interest, depreciation, amounted to \$181,623.07, equal to requirements of this bond issue. Net 1, 1926, the date upon which present rol, are at an annual rate of over five requirements.

Banking fund requires the Company to the Trustee sufficient funds to retire bonds, beginning June 1, 1927, by purchase, or by call at 102, and accrued sinking fund will operate in the event during June 30, 1927, or thereafter, if the company exceed \$250,000; then 25% of over \$50,000) shall be deposited with the Trustee.

of this issue is to retire present current for additional working capital. Bonds are convertible, at the option of June 1, 1931, into Second Participating Stock of the PACIFIC DAIRY PRODUCTS COMPANY, which was formerly of the National Ice Cream Co., H. R. Struthers, Vice-President; A. D. Schindler, Vice-President; J. W. Mason, President; and J. W. Mason, President of Steel Co., and others.

50% Bond Department California Trust Co. Los Angeles

BOND QUOTATIONS

NEW YORK, June 21. (AP)—An unabated demand for bonds today carried the prices of listed issues moderately higher and resulted in the ready sale of more than \$25,000,000 in new offerings. Slightly stiffer call money rates apparently had no effect on the day's trading and buying interest was well maintained in all divisions of the market.

Foreign obligations continued their move to higher ground, with good demonstrations of strength given by Mexican, German and South American issues. New high records for the year were established by several of Mexico's assorted bonds in response to the announcement that semiannual interest payments on the debt would shortly be resumed. With the notation of a German steel loan scheduled for this week, Rheinische Union 7 1/2's advanced to a new peak above 104 and additional gains were registered by German General Electric 6 1/2's and Rhine Westphalia Electric 7 1/2's. Chilean and Uruguayan bonds were firm.

Railroad issues failed to equal the swift pace set by the carrier stocks although brisk buying movements were evident in several issues. Delaware & Hudson convertible 5's, Long Island 5's, Indianapolis and Louisville 4's, Ulster and Delaware 5's and Puerto Rico 5's were active and higher.

Reflecting improved conditions in their respective industries, oil and copper bonds readily attracted buyers. Anaconda 5's and 7's, Chile Copper 6's and 8's and Skelly 6 1/2's worked moderately higher. Union Oil of California 5's sold at a new top price for the year coincident with the circulation of various merger reports affecting the company. To finance new construction a \$3,000,000 issue of American Public Service Company sixteen-year 5 per cent bonds will be offered tomorrow at a price of 96, to yield over 5.35 per cent.

Bond Salesman

A nationally known investment banking house offering an exceptional opportunity on its sales force to men who desire to establish themselves on a desirable basis as regards remuneration and prospects of advancement to responsible positions. Such men must have an established clientele and local experience. Give full details in first letter at which time an interview will be arranged. All correspondence treated with strictest confidence. Our sales force has been advised of this advertisement. Address: DAB, BOX 650, TIMES BRANCH

American Public Service Company

First Lien 5% Gold Bonds, Series C

Due December 1, 1942

Price 96 and Interest, Yielding over 5.35%

Due December 1, 1926. Interest payable semi-annually June 1 and December 1 in New York, without deduction for Federal Income Taxes now or hereafter deductible at the source, net in excess of 5%. Coupon bonds in interchangeable denominations of \$1,000, \$500 and \$100.

The following information is summarized from a letter from Mr. Martin J. Inall, President of the Company:

Territory: The American Public Service Company controls through ownership of all the capital stocks (except directors' qualifying shares) and all outstanding funded debt, eleven public utility operating companies. The subsidiary companies supply, without competition, 124 communities with one or more classes of public utility service, 122 with electric service, 53 with ice, 2 with street railway service and 6 with gas. The communities thus served are situated in eastern Oklahoma and central and eastern Texas, and have an estimated combined population of 233,000. The varied resources and industries of the territory served offer excellent opportunities for securing large and profitable increases especially in the power and lighting business.

Security: The First Lien Bonds, in the opinion of counsel, are a direct obligation of the Company and are now secured by a first lien on all the outstanding bonds and capital stocks (except directors' qualifying shares) of the subsidiary companies, all of which are deposited and pledged with the Trustee under the Mortgage. No additional stocks or bonds may be issued by the subsidiary companies unless deposited as additional security under the First Lien Mortgage.

Earnings: Gross earnings (including other income) for the twelve months period ended April 30, 1926 were \$5,033,154. During the same period, net earnings before depreciation amounted to \$2,108,908 as compared with annual interest charges on the First Lien Bonds, including the present issue, outstanding in the hands of the public of \$973,322.

The following statements for the past eight calendar years clearly indicate the growth of the Company:

Year Ended December 31	Gross Earnings (incl. Other Income)	Net Earnings (Before Depreciation)	Electric Customers
1918	\$1,173,740	\$323,917	9,871
1919	1,425,409	470,506	12,002
1920	2,088,065	607,163	14,936
1921	2,665,304	997,801	15,782
1922	2,865,220	1,188,484	19,732
1923	3,487,802	1,401,753	25,135
1924	4,290,347	1,785,117	34,671
1925	4,947,092	1,994,938	42,353

During the above period, gross earnings increased 321%, net earnings 515%, number of electric customers 329%.

Management: The operations of the Company are controlled by the Middle West Utilities Company.

A fully descriptive circular will be sent upon request

Halsey, Stuart & Co.

A. B. Leach & Co., Inc.

These bonds are offered for delivery when, as and if issued and received by us, subject to approval by counsel. It is expected that definitive bonds will be ready for delivery on or about July 1, 1926.

Price 97 1/2 and accrued interest, to yield 5.75%

GIRL AND MEN TRAIN VICTIMS

Young Woman, Demented, Struck on Trestle

Youths' Attempt to Beat Engine Ends Fatally

Witnesses Say Pair Passed Warning Signal

An effort to beat a freight engine to a crossing at Alhambra in their automobile yesterday resulted in the deaths of two young men, while the wanderings of a girl declared by her father to have been mentally ill carried her to death while attempting to cross a railroad trestle before a speeding passenger train.

The girl, who police first thought was a possible murder victim, was identified as Miss Neva Brown, 20

years of age, of 1322 South Eastern avenue, according to Deputy Sheriff Stensland, who was assigned to the case after the body was found early yesterday. She had been hurled from a Santa Fe railroad trestle over the Rio Hondo near Los Nietos and received a crushed skull which caused her death.

GIRL UNBALANCED
According to Deputy Sheriff Stensland, the father, in reporting his daughter as missing Sunday night, said she was slightly demented. As a result of the identification of the body, authorities have abandoned the murder theory, Stensland stated.

The two men were instantly killed when their automobile was struck by a freight engine at the Graham-avenue crossing of the Southern Pacific tracks at Alhambra. They were Lester C. Smith, 19 years of age, of 2509 Jackson avenue, Wilmar, and W. E. Rheinhardt, 24 years of age, of 502 Sefton avenue, Monterey Park.

According to eyewitnesses, the wig was working at the crossing, the engineer had whistled between two cars were waiting for the engine to pass when the car driven by Smith, north-bound, came along. Smith, it was said, drove past the waiting cars and on to the tracks. The car was hurled about fifty yards and demolished. Bodies of the two men were taken to the undertaking rooms of Turner, Stevens & Turner at Alhambra.

LEAVES WIDOW AND CHILD
Smith was employed at a garage in Alhambra and Rheinhardt, after being out of work some weeks, had obtained a job in Pasadena. Both were on their way to work at 7 a.m. Rheinhardt leaves a widow and a small child. The engineer of the freight engine, which was traveling without load, was Robert Baker of Los Angeles.

John Rheinhardt, father of one of the men killed, is a Southern Pacific engineer. Some months ago he was in charge of a train which struck an automobile at Puente, killing four persons.

The inquest in the case of Smith and Rheinhardt was set for 9:30 a.m. tomorrow.

GIRL HIT BY TRAIN
The young woman's body was found beneath the trestle by Juan Hernandez, who reported the matter to Constable Way at Whittier and he to Deputy Sheriffs Bright and Stensland. Her body was taken to the county morgue, where an autopsy showed no injuries other than the skull fracture and a mark on her back where the engine struck. It was decided she had been killed about 6 a.m.

TWO MEN INJURED
Manuel Gonzales, 35 years of age, suffered a fractured collar bone and a possible fracture of the spine, and Martin Marquez, 41, suffered cuts and bruises when the small touring car in which they were riding turned over on the Ballona Road between Culver City and Inglewood. Both were taken to the Community Hospital at Culver City, where the condition of Gonzales was said to be serious. The machine was traveling at a high speed when a front tire blew out causing the car to overturn, according to Culver City police who investigated.

CREAMY WHITE

DO your children want to make a meal of meat and dessert? Must you force them to eat bread. If so, bread is probably—"just bread" to your family. They've never tasted a delicious, creamy bread like MAC-KEK-NEE'S Creamy White. Serve it ONCE, and they'll tell you it's the "tastiest" part of the meal.

Tested flour, pure milk, vegetable shortening—accurately measured—mixed with consummate skill, handled with spotless cleanliness and baked as only long experience can bake—that's MAC-KEK-NEE'S Creamy White—the aristocrat of white breads.

HOSPITAL CHILDREN GRADUATE

Display of Handiwork Supplants Drills

Amanda Ullberg and Class Work

ONE of the happiest and most anxiously anticipated days of a year for little patients of the Orthopaedic Hospital, a Community Chest agency, was celebrated yesterday when graduation exercises were held on the hospital grounds at 2417 South Hope street.

In their fullest and finest array, the young graduates received their certificates of graduation from the grammar grades, from the Los Angeles Board of Education, for having successfully completed the regular course of study prescribed for city schools.

There were no dances or drills or marches to mark the happy event, for the little graduates came on crutches and braces and in wheel chairs, but a magnificent display of their accomplishments was in evidence everywhere.

The Los Angeles Chapter, American Red Cross, another Community Chest organization, issued twelve certificates to girls for having successfully completed a nurses' training course. Nine cash prizes were awarded for essays.

The students included hundreds of patients and members of the Orthopaedic Alumnae Association. According to authorities, the Orthopaedic Hospital is conducting one of the most efficient schooling systems for crippled children.

The Board of Education issued diplomas yesterday to Kenneth Green, Amanda Ullberg, Charles Farmer, Bernice Daughlin, Harry Bowbothan, Keturah Hopkins, Charles Thurston, Howard White, Harry Bruner, Otis Hammond, Doris Stickel, Saul Cutrow, Morton Levine and Berton Heath.

Miss Bixby Will Wed at Parents' Home on July 2
LONG BEACH, June 21.—Elaborate preparations are being made for the approaching marriage of Paul Harwood Dudley, 22 years of age, of Caldwell, Idaho, and Miss Aris Hathaway Bixby, 20, daughter of Llewellyn Bixby, local banker and capitalist. The couple today obtained a marriage license at Los Angeles.

According to present plans the marriage will take place at the Bixby home on Ocean Boulevard on July 2, next. The engagement was announced about one month ago.

ARKANSAS RALLY THURSDAY
The final reunion for the Arkansas Society members will be held Thursday evening in the Veterans' Hall at 246 South Hill street. A popular program will be given. All Arkansas members are invited, whether members or not, and may meet many old friends.

NEW ENGLANDERS TO MEET
New Englanders meet tonight in the Moose Hall at 1024 South Grand avenue. Charles S. Lamb, secretary of the Playgroup, will sing, song leader and soloist, will lead the community singing and will give several solos. Dr. Charles M. Calderwood will tell of New England days and ways. Mrs. Alice Seibert, reader, will give several numbers.

FORMER PLANNERS TO MEET
A reunion dinner of members of the former City Planning Commission will be held at the California Country Club the evening of the 30th inst. It was announced yesterday. David Faries of the Traffic Commission, will tell in detail of the street-opening and widening program of the commission's major-highways committees.

GASOLINE SHED PROTESTED
A protest in the form of a resolution against an asserted fire hazard on the water front at Priea avenue and Water street, in the Harbor district, in the form of a gasoline storage shed, was received by the Council yesterday from the Wilmington Chamber of Commerce and referred to Fire Chief Scott.

RICH MAN'S WIFE TELLS OF CRUELTY

Wild Parties and Raid by Police Charged in Divorce Suit by Mrs. A. H. Busch

A. Hays Busch, said to be a real-estate operator with property worth more than \$1,000,000 and an income exceeding \$30,000 a year, was accused of cruelty, habitual intoxication and infidelity in a divorce complaint filed yesterday by Mrs. Ruth Gordon Busch. No co-respondent is named, however, but a police raid said to have disclosed a woman's presence in Busch's apartment at the Gaylord is mentioned in the complaint. Many "wild parties" are described.

The couple were married in 1920, separated October 10, 1925, and have one child, now 5 years of age, the complaint says. On many occasions, Mrs. Busch asserts, Busch failed to accompany her to engagements they had; on other occasions he accompanied her, but got drunk.

On September 2, 1925, he came home at 7 a.m. with nine friends, all intoxicated, and demanded that Mrs. Busch prepare breakfast for all, she asserts, then he went away and returned later without the nine, but with a woman. In November, 1924, he came home in a state of "advanced intoxication" and she found him asleep in his car at 8 a.m. In January, 1925, still according to the complaint, he, another man and two women took a private room at a Culver City road-house and remained there drinking liquor.

For several months prior to June, 1924, according to Mrs. Busch, her husband was almost continuously in company of a "woman of questionable reputation," who one day in June 1924, called him on the telephone three times at his home, failing to get him, and that night he received a telegram which read: "Am leaving for San Francisco, very hurt and very unhappy—M."

He refused to tell her who M. was or give any explanation of the message, she says. On November 16, 1924, he went to call on a woman at the Gaylord and remained till 5 p.m. The infidelity asserted took place at the Gaylord, January 22, 1925, according to the complaint.

The suit was filed by Flint & McKay, attorneys for Mrs. Busch.

PAIR PLUNGE INTO SEA OF MATRIMONY
Athletic Club Instructor and Star Pupil Decide to Team Up Permanently

The matrimonial plunge has won Viola Hartman, water nymph whose activities in the swimming plunge have brought her innumerable medals and more fame.

She has taken as her life partner in the plunge of matrimony Fred Cady, swimming instructor at the Los Angeles Athletic Club, and himself one of the best aquatic performers in the Southland.

They took the plunge quietly and gracefully Saturday at Riverside and kept it a secret until yesterday. Then a friend learned of it and the news became public.

"It was a case of the swimming plunge leading to the matrimonial plunge," Mr. Cady explained. "We met in the water and the courtship was conducted in water as much as land."

The bride came to this city about five years ago from Phoenix. At that time her ability to swim was rather limited. Mr. Cady took her in hand and a couple years later she began piling up championships, cups and ribbons galore. She has won several national swimming and diving championships under Cady's tutelage.

"I think we'll get along fine in the matrimonial sea," was Mr. Cady's comment. "Both of us are well able to navigate rough waters."

Mr. Cady stated that his bride will now retire from active competition in the water. She is the daughter of Mr. and Mrs. Charles Hartman of Phoenix. Mr. Cady was divorced more than a year ago from his first wife, from whom he had been separated for more than seven years.

FILIAL DEVOTION STEPS INTO COURT TO SAVE MOTHER FROM CELL ON BOOTLEGGING CHARGE

The love of two sons for their mother overshadowed the legendary love of a mother for her children yesterday and featured the court proceedings in the case of Mrs. Margaret Leebing, apartment-house owner who appeared before Municipal Judge Edmonds, charged with selling intoxicating liquor.

According to her testimony, she had recently purchased an apartment-house at 737 East Ninth street. Tenants were scarce, she declared, and in order to meet her accumulating obligations she undertook to sell bootleg liquor. On the seventh of May she was arrested but later was released on bond.

Someone told her, she testified, that unless she could raise \$750 before her case came to trial she would be compelled to go to jail. So she made a second attempt to bootleg successfully. Within three weeks after her first arrest, she was taken in custody again. Yesterday her case was being tried before Judge Edmonds.

It was during the trial that her mother's love had its reward. Two young men, both under 25 years of age, came before the court and made a heart-rending plea for their mother the defendant. They were Carl and Ray Simmons.

"She's our mother," they declared before Judge Edmonds. "We've both just been married recently and our own homes have claimed our attention so that mother has been neglected. It was only by accident that we learned of her difficulty. Won't you please suspend her case, your honor? We'll take care of her debts and make a home for her. We can't see her go to jail."

The court listened to the plea and gave Mrs. Leebing a suspended sentence of \$800 fine and 120 days in jail, notwithstanding it was not a case for probation. "There was something too sincere about that plea to disregard it," Judge Edmonds declared.

Carelessness in cultivation and a drought caused a big loss in Greece's current crop this year.

SEEKERS LEARN SHOPPING WILES

Clubwomen Spend Improving Day at Stores

Abuse of Approval System Made Evident

Tricks of Buyers Add to Merchandise Cost

Determined to obtain inside information on the subject of returned merchandise in order to make a report to their respective clubs next fall, twelve Los Angeles clubwomen representing half a dozen different clubs invaded the downtown department stores yesterday and took charge of the returned merchandise desks for the day. They were led by Mrs. Frank J. Spring, chairman of home economics of the District Federation of Women's Clubs.

From delivery rooms to book-keeping departments, the women followed the trail of returned merchandise, and they declared, they will tell everything but names when they make their reports to their clubs. Besides Mrs. Spring, the investigators included Mrs. John Stearns Thayer, Mrs. L. I. Doherty, Mrs. John A. Nash, Miss Katherine C. Moore, Mrs. Arthur Rear, Mrs. W. A. Rear, Mrs. J. McCormack, Mrs. F. B. Dickson, Mrs. Margaret Head, Mrs. Sarah Head, Mrs. Margaret Hall and Mrs. George L. Winsworth.

COLLECT EXPERIENCE

Their experiences differed greatly. One clubwoman was called on to accept the return of two union suits and the woman who brought them back said:

"I bought these last March, but I want to return them now because when my son laundered them last week one shrank and one stretched. Yes, I see he did stretch that one badly, but he's only a boy, you see!"

Another witnessed the return of a rhinestone tiara, purchased by a well-known artist the day before her appearance in concert. It had not been worn, her husband assured the store when he tried to return it yesterday, but the clubwoman detected several hairs clinging to the inside frame.

Still another woman came across the record of a \$600 table cloth purchased on approval and returned covered with wine stains.

TELLTALE EVIDENCES

The women themselves opened packages containing returned merchandise and quickly learned to look inside the collar for soil or powder marks on a dress sent back with a note saying, "because I changed my mind, but I didn't wear it." And one woman collected a line of silk stockings riddled with runs and holes, jewelry and yardage to exhibit before her club in the fall.

All of the women stated that they will ask their clubs to devote programs to the subject of returned merchandise, and Mrs. Spring, chairman of the investigating committee, said she will endeavor to make a report showing why all women have to pay more for their clothes because of the abuse of the returned merchandise privilege.

"We want to establish a better standard of shopping," Mrs. Spring said, "because we think we can lower the cost of living if we do."

HOTEL SAVOY Keeps Up-to-Date

HOTEL SAVOY SEATTLE

"Twelve Stories of Solid Comfort"

MEETING the demands of growing patronage and changes in tastes and desires of the traveling public, the hotel has made extensive ground floor alterations which provide enlarged lobby, comfortable lounge, coffee shop and more spacious dining room.

We invite you to make Hotel Savoy your Seattle hotel-home—to enjoy these added comforts and conveniences and the regular Savoy features of—

Central location—Second at University—heart of the downtown section. Airy outside rooms (250); splendid views.

Reasonable rates—\$2 to \$4 single; \$3 to \$6 double.

Come and see the improved Hotel Savoy, on which we have spent \$50,000 for your greater comfort. Fireproof construction. Famous cuisine. Fireproof garage in connection. Send card for folder.

M'PHERSON CLEW DOUBTED

Coroner Frank Nance received a letter from D. Barr of San Diego yesterday in which the writer states he took a snapshot of a body he saw pass under the Venice pier on the 12th inst., and believes it was that of Almee Temple McPherson, drowned evangelist.

The letter was turned over to Chief of Detectives Herman Cline who notified Venice division officers to make what investigation they deem appropriate. The letter reads:

San Diego, Cal. June 19, 1928.

Dear Sir:

An occasion called me to Venice, June 12. As I was on the pier (Venice) at 11:50 a.m., I saw something resembling a mangled body pass under the pier for a distance of

about 150 feet. I took a snapshot and the picture shows a white spot with a faint form of a face in it. I am of the opinion that the "Angelus Temple Evangelist" is under the Venice pier and a portion of her bone structure may be discovered there by July 8, 1928.

D. Barr.

1015 F street, S. D.

Both the fact that the snapshot did not accompany the letter and the prediction of a specific day on or before which a recovery might be made, caused Chief Cline to doubt the value of the letter, he said.

Wigs colored to match the wearers' gowns are being worn by society women of Paris.

At a fashionable wedding in London recently the guests were attired as huntmen.

Zephyrs Blew Sweet Odors to Undo the Brew

Officer Skaggs was patrolling his beat; the wu-ruld seemed peaceful, quiet and sweet. Then there came to his nostrils an odor so keen, said he, "Something is brewing, I ween."

He followed the odor so tainted until, in the home of Phil Cohen he located a still. The cup that should cheer is now filled with woe because an officer's nose, it seems, told him so.

Phil and his still lived on South Figueroa, but now they're at Wilshire, don't live there no mo-ah.

An air-service company in Bethonia has asked the government to subsidize its proposed line in that country.

CAMP SITE SOUGHT FOR CAMPFIRE GIRLS

Los Angeles Campfire Girls are in search of a mountain site in the national forest for a recreational camp for summer vacations and week-end work. It is hoped such a center can be found near Camp Radford, vacation camp twenty miles north of Redlands in the San Bernardino Mountains, and that the Federal government will allocate the desired location. On a tour of investigation a party composed of Mrs. Arthur C. Wier, member of the Los Angeles Playground and Recreation Commission; Miss Alma Wilson, supervisor of municipal recreation camps; Mrs. Mary J. Russell, executive secretary of the Los Angeles Campfire Girls; Mrs. McRoberts and Miss Jeanette Wrotenburg, members of the Campfire Girls' Council, are now at Camp Radford.

LEGION OUTING AT ISLAND

The fifth annual pilgrimage of members of the American Legion in Southern California to Catalina Island, is scheduled for next Saturday and Sunday, under the personal direction of Capt. A. B. Waddingham, tenth district committeemen. The Legionnaires will be housed at Villa Park. Both the Catalina and the Avalon will be used to transport the veterans and their families, leaving Wilmington at 10 a.m., and 3:45 p.m., Saturday. Reservations for the trip are being taken at the headquarters of the committee, 104 Pacific Electric Building.

There are two entertainment features of Saturday evening, one the Legion's annual ball at the Catalina Island Pavilion, the other a broadcast of Legion features from Maj. Lawrence Mott's radio station KFWO. Arrangements for the ball are in charge of the Catalina Legion Post, commanded by James B. Ogden. The broadcast will be directed by H. E. Wirtz of 21 Second.

Other events of the two-day pilgrimage will be a street parade and demonstration of fun-making activities. Amuse Post will furnish some cowboy riders for this parade. The seventh birthday party of Los Angeles Post will be conducted at the St. Catherine Hotel. Some surprises are being planned by Leonard Wilson, county commander of the Legion.

Allen B. Bixby, State Commander of the Legion, who originated the idea of the Catalina picnic while county commander, will be present with other officers of the State organization. Several of the county posts will send their bands.

James Bennis, who retailed \$6,600 shoes in Europe, died recently in London.

Through the grace of heaven, he was working in London, and was washed out of the water, exploded yesterday morning, 28 years of age, at 3428 Calhoun street.

Kennedy suffered from conditions of arms, but two tendons were cut in the right arm. He was attended at the hospital by Dr. D. D. D.

A chess urn, believed to be 1600 years old, was found in a great pile of ruins in Ireland, recently.

'Empty' Ignored and

Mt. Baker National Forest

...our newest attraction

Another scenic wonderland of snow-capped peaks, Alpine meadows, cool green forests, mirrored lakes and sparkling waterfalls!

IF Mount Baker National Forest, now open to the tourist for the first time, were in Europe, it would be hailed as an international attraction. Yet it is but one of the outstanding delights for those who choose the comfortable, interesting, inexpensive and "different" vacation and come north to the cool, scenic Evergreen Playground of Puget Sound and British Columbia.

It is time to "let go" and do something different. Come "on up North" where there are Westerners like yourself who know how to have a good time and want you to enjoy the heritage of sea, snow-capped mountains, fjords, evergreen forests and interesting cities. Experience the wonders of Rainier National Park, Mount Baker National Forest, Lake Crescent and the Olympic Peninsula, the two thousand miles of shoreline of Puget Sound, the unsurpassable San Juan Archipelago, and the interesting, colorful seaport cities of Seattle, Tacoma and Bellingham.

Then "go across the line" into the foreign atmosphere of Victoria and Vancouver, British Columbia. Canada welcomes tourists and your Canadian cousins will be hospitable, interesting friends. Take a wonderful trip up Howe Sound from Vancouver, or Lynn Canyon, or Indian River Park. Victoria, the capital of British Columbia, on Vancouver

Island, has been called more English than London, and is an entrancing city.

Here there are great stretches of inland seas bordered by evergreen forests, the horizon bounded by snow-capped peaks, of brilliant summer days and refreshing nights, with every out-of-door sport, motoring over paved roads through a scenic wonderland, yachting, bathing in surf or lake, mountain climbing, skiing on glaciers, ocean, stream or lake fishing, golf, camping, hiking. It isn't a question of what to do, but "How can I find time to do it all?" That's the reason 150,000 Californians visited us last summer and told their friends about the great country Up North.

Capitalize your vacation. Make it pay more than merely in a recreational way. Know the Pacific Northwest as well as we know and enjoy the wonders of your own Southwest.

The Hospitality—Tourist information bureau of the five cities will outline itineraries to help plan your vacation so you will see the most for the time and money you can devote to your holiday.

Send coupon for booklet, "The Evergreen Playground." It tells in picture and story the wonders of this great Vacation Land. It will help you plan your trip more easily.

Ideal Summer Climate!

No parched and blistering summers here. An average rainfall of one inch per month all through the summer keeps the Evergreen Playground invigorated. Average Summer Temperature 60°—a maximum of 80° is rare. Expect to sleep under blankets every night.
